2. The Department of Commerce finds that there is good cause under 5 U.S.C. 553(b)(B) to waive the provisions of the Administrative Procedure Act otherwise requiring prior notice and the opportunity for public comment because they are unnecessary. The revisions made by this rule are technical corrections to provisions that have already been subject to public notice and the opportunity to comment. These revisions in this rule are important to get in place as soon as possible to avoid confusion by the public regarding the intent and meaning of recent changes to the EAR. In addition, BIS finds good cause to waive the 30-day delay in effectiveness under 5 U.S.C. 553(d)(3).

As mentioned previously, the revisions made by this rule are technical corrections that need to be in place as soon as possible to avoid confusion by the public regarding the intent and meaning of recent changes to the EAR.

3. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for these amendments by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., are not applicable.

List of Subjects
15 CFR Parts 740 and 758
Administrative practice and procedure, Exports, Reporting and recordkeeping requirements.

15 CFR Part 742

Exports, Terrorism.

Accordingly, parts 740, 742 and 758 of the Export Administration Regulations (15 CFR parts 730–774) are corrected as follows:

PART 740—[AMENDED]

1. The authority citation for 15 CFR part 740 is revised to read as follows:

2. In §740.10, revise paragraph (b)(1) to read as follows:

§ 740.10 License Exception Servicing and replacement of parts and equipment (RPL).

(b) * * *

(1) The provisions of this paragraph (b) authorize the export and reexport to any destination, except for 9x515 or “600 series” items referenced in Country Group D:5 (see Supplement No. 1 to this part) or otherwise prohibited under the EAR, of commodities and software that were sent to the United States or to a foreign party for servicing and replacement of commodities and software “subject to the EAR” (see §734.2(a) of the EAR) that are defective or that an end user or ultimate consignee has found unacceptable.

* * * * *

3. In §740.20, add two new sentences after the second sentence and revise the last two sentences of paragraph (d)(2) to read as follows:

§ 740.20 License Exception Strategic Trade Authorization (STA).

(d) * * *

(2) Prior Consignee Statement. One statement may be used for multiple shipments of the same items between the same parties so long as the party names, the description(s) of the item(s), and the ECCNs are correct. The exporter, reexporter, and transferor must maintain a log or other record that identifies each shipment made pursuant to this section and the specific consignee statement that is associated with each shipment. Paragraph (d)(2)(viii) is also required for transactions including 9x515 items.

[INSERT NAME OF CONSIGNEE]:

* * * * *

PART 742—[AMENDED]

4. The authority citation for 15 CFR part 742 is revised to read as follows:

5. In §742.6, revise the first sentence of paragraph (b)(1) to read as follows:

§ 742.6 Regional Stability.

(b) * * *

(1) Applications for exports and reexports of 9x515 and “600 series” items will be reviewed on a case-by-case basis to determine whether the transaction is contrary to the national security or foreign policy interests of the United States, including the foreign policy interest of promoting the observance of human rights throughout the world. * * *

* * * * *

PART 758—[AMENDED]

6. The authority citation for part 758 is revised to read as follows:

7. In section 758.1, revise paragraph (b)(3) to read as follows:

§ 758.1 The Electronic Export Information (EEI) filing to the Automated Export System (AES).

(b) * * *

(3) For all exports of 9x515 or “600 series” items enumerated or otherwise described in paragraphs .a through .x of a 9x515 or “600 series” ECCN regardless of value or destination, including exports to Canada;

* * * * *

Dated: August 11, 2014.

Matthew S. Borman,
Deputy Assistant Secretary for Export Administration.

RIN 1545–BL52

Guidance Regarding Dispositions of Tangible Depreciable Property

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Final regulations and removal of temporary regulations.

SUMMARY: This document contains final regulations regarding dispositions of property subject to depreciation under section 168 of the Internal Revenue Code (Code) (Modified Accelerated Cost Recovery System (MACRS) property). The final regulations also amend the general asset account regulations and the accounting for MACRS property regulations. The final regulations provide rules for determining gain or loss upon the disposition of MACRS property, determining the asset disposed of, and accounting for partial dispositions of MACRS property. The final regulations affect taxpayers that disposed of MACRS property. The final
regulations also remove temporary regulations under section 168 regarding general asset accounts and disposition of MACRS property.

**DATES:** Effective Date: These regulations are effective on August 18, 2014.

**Applicability Dates:** These regulations apply to taxable years beginning on or after January 1, 2014. For dates of applicability of the final regulations, see § 1.168(i)–1(m), 1.168(i)–7(e), and 1.168(i)–8(j).

**FOR FURTHER INFORMATION CONTACT:** Kathleen Reed or Patrick Clinton, Office of Associate Chief Counsel (Income Tax and Accounting), (202) 317–7005 (not a toll-free number).

**SUPPLEMENTARY INFORMATION:**

**Background**

On December 27, 2011, the IRS and the Treasury Department published in the Federal Register (76 FR 81060) temporary regulations (TD 9564) regarding the accounting for, and dispositions of, property subject to depreciation under section 168 (MACRS property). The temporary regulations also amended the general asset account regulations under § 1.168(i)–1. On the same date, the IRS published in the Federal Register (76 FR 81128) a notice of proposed rulemaking (REG–168745–03) cross-referencing the temporary regulations (2011 proposed regulations). The IRS and the Treasury Department received numerous written comments responding to the 2011 proposed regulations and held a public hearing on May 9, 2012.

The temporary regulations initially applied to taxable years beginning on or after January 1, 2012. In response to the comments received and the statements made at the public hearing, the IRS and the Treasury Department released Notice 2012–73, 2012–51 IRB 713, on November 20, 2012, announcing that, to help taxpayers transition to the final regulations, the IRS and the Treasury Department would change the applicability date of the temporary regulations to taxable years beginning on or after January 1, 2014, while permitting taxpayers to choose to apply the temporary regulations to taxable years beginning on or after January 1, 2012, and before the applicability date of the final regulations. Notice 2012–73 also alerted taxpayers that the IRS and the Treasury Department intended to publish final regulations in 2013 and expected the final regulations to apply to taxable years beginning on or after January 1, 2014, but that the final regulations would permit taxpayers to apply the provisions of the final regulations to taxable years beginning on or after January 1, 2012. On December 17, 2012, the IRS and the Treasury Department published in the Federal Register (77 FR 74583) a technical amendment to TD 9564, which amended the applicability date of the temporary regulations to taxable years beginning on or after January 1, 2014, while permitting taxpayers to choose to apply the temporary regulations to taxable years beginning on or after January 1, 2012, and before the applicability date of the final regulations.

Notice 2012–73 also alerted taxpayers that the IRS and the Treasury Department intended to revise the disposition rules in the temporary regulations. After considering the comment letters and the statements made at the public hearing, the IRS and the Treasury Department removed the temporary regulations under section 167 and § 1.168(i)–7 and issued final regulations in the Federal Register on September 19, 2013 (78 FR 57686). The final regulations under section 167 provide rules for depreciation of leasehold improvements and amend existing regulations under section 167 regarding accounting for and retirement of depreciable property. Section 1.168(i)–7 provides rules for how to account for MACRS property. On the same date, the IRS also withdrew the 2011 proposed regulations under §§ 1.168(i)–1 and 1.168(i)–8 and published a notice of proposed rulemaking (REG–110732–13) under §§ 1.168(i)–1, 1.168(i)–7, and 1.168(i)–8 (2013 proposed regulations) in the Federal Register (78 FR 57547). The 2013 proposed regulations under § 1.168(i)–1 amended the existing regulations on general asset accounts, and the 2011 proposed regulations under § 1.168(i)–8 provided rules for dispositions of MACRS property. The IRS and the Treasury Department did not withdraw or remove the temporary regulations under §§ 1.168(i)–1T and 1.168(i)–8T and taxpayers continued to have the option of applying those temporary regulations to taxable years beginning on or after January 1, 2012, and before the applicability date of the final regulations.

No comments were received from the public in response to the 2013 proposed regulations. No public hearing was requested or held. However, the IRS and the Treasury Department are making clarifying changes to the 2013 proposed regulations regarding the determination of the unadjusted depreciable basis of a disposed asset in a general or multiple asset account of an asset, and the manner of making certain disposition elections for assets included in a general asset account when section 280B applies. These revisions are discussed in this preamble. The IRS and the Treasury Department are removing the temporary regulations under §§ 1.168(i)–1T and 1.168(i)–8T and are issuing final regulations under §§ 1.168(i)–1, 1.168(i)–7, and 1.168(i)–8. The 2013 proposed regulations are adopted as amended by this Treasury decision.

**Explanation of Provisions and Revisions**

**I. Overview**

The final regulations under §§ 1.168(i)–1, 1.168(i)–7, and 1.168(i)–8 generally retain all of the provisions of the 2013 proposed regulations. Section 1.168(i)–1 amends the existing general asset account regulations regarding establishment of general asset accounts, depreciation of a general asset account, and dispositions of assets in a general asset account. Section 1.168(i)–7 amends the existing regulations on accounting for MACRS property to address partial dispositions of MACRS property. Section 1.168(i)–8 provides rules for dispositions of MACRS property. These final regulations generally apply to taxable years beginning on or after January 1, 2014.

**II. Disposition Rules for MACRS Property Under § 1.168(i)–8**

Section 1.168(i)–8 provides the basic rules applicable to dispositions of MACRS property, and § 1.168(i)–1 provides special rules applicable to MACRS property included in a general asset account.

**A. Definition of Disposition**

The final regulations retain the definition of “disposition” for MACRS property that is set forth in the 2013 proposed regulations. A disposition occurs when ownership of the asset is transferred or when the asset is permanently withdrawn from use either in the taxpayer’s trade or business or in the production of income. A disposition includes the sale, exchange, retirement, physical abandonment, or destruction of an asset. A disposition also includes the retirement of a structural component (or a portion thereof) of a building only if the partial disposition rule (discussed in II.C) applies to such structural component (or a portion thereof).

Finally, the manner of disposition (for example, abnormal retirement or normal retirement) is not taken into consideration in determining whether a disposition occurs or gain or loss is recognized.
B. Determining Appropriate Disposed Asset

The final regulations also retain the rules in the 2013 proposed regulations for determining the disposed asset for tax disposition purposes. In general, the facts and circumstances of each disposition are considered in determining the appropriate disposed asset. However and as provided in the 2013 proposed regulations, the asset for tax disposition purposes may not consist of items placed in service by the taxpayer on different dates (without taking into account the applicable convention). Further, the unit of property as determined under § 1.263(a)–3(e) or in published guidance in the Internal Revenue Bulletin under section 263(a) does not apply for purposes of determining what is the appropriate disposed asset.

In addition to these general rules, the final regulations provide special rules for certain types of properties. The final regulations retain the rule in the 2013 proposed regulations that each building (including its structural components) is the asset for tax disposition purposes, unless more than one building (including its structural components) is treated as the asset under § 1.1250–1(a)(2)(ii), there is an improvement or addition to an existing building (including its structural components), or the building includes two or more condominium or cooperative units. If there is an improvement or addition to an existing building (including its structural components), the improvement or addition is the asset. If a building includes two or more condominium or cooperative units, each condominium or cooperative unit (including its structural components) is the asset.

The final regulations also provide that if a taxpayer properly includes an item in one of the asset classes 00.11 through 00.4 of Rev. Proc. 87–56 (1987–2 CB 674) or classifies an item in one of the categories under section 168(e)(3) (other than a category that includes buildings or structural components; for example, retail motor fuels outlet and qualified leasehold improvement property), each item is the asset provided it is not an improvement or addition to an existing asset.

Finally, and consistent with section 168(i)(6), the final regulations provide that if the taxpayer places in service an improvement or addition to an asset after the taxpayer placed the asset in service, the improvement or addition is a separate asset.

C. Partial Dispositions

The final regulations also retain the partial disposition rule in the 2013 proposed regulations. Consequently, the disposition rules in the final regulations apply to a partial disposition of an asset (for example, the disposition of a roof (or a portion of a roof)). The partial disposition rule allows taxpayers to claim a loss upon the disposition of a structural component (or a portion thereof) of a building or upon the disposition of a component (or a portion thereof) of any other asset without identifying the component as an asset before the disposition event. The partial disposition rule also minimizes circumstances in which an original part and any subsequent replacements of the same part are required to be capitalized and depreciated simultaneously. These final regulations provide examples demonstrating the application of the partial disposition rule.

In many cases, the partial disposition rule is elective (“partial disposition election”). However, consistent with the 2013 proposed regulations and the operation of sections 165, 168(i)(7), 1031, and 1033, and because sales of a portion of an asset are common, the partial disposition rule is required to be applied to a disposition of a portion of an asset as a result of a casualty event described in section 165, to a disposition of a portion of an asset for which gain (determined without regard to section 1245 or 1250) is not recognized in whole or in part under section 1031 or 1033, to a transfer of a portion of an asset in a step-in-the-shoes transaction described in section 168(i)(7)(B), or to a sale of a portion of an asset. Consequently, a disposition includes a disposition of a portion of an asset under these circumstances, even if the taxpayer does not make the partial disposition election for that disposed portion. For other transactions, a disposition includes a disposition of a portion of an asset only if the taxpayer makes the partial disposition election for that disposed portion.

A taxpayer may make the partial disposition election for the disposition of a portion of any type of MACRS property, including an asset that is properly included in one of the asset classes 00.11 through 00.4 of Rev. Proc. 87–56. However, consistent with section 168(i)(6) and the 2013 proposed regulations, a taxpayer making the partial disposition election for the disposition of a portion of an asset that is properly included in one of the asset classes 00.11 through 00.4 of Rev. Proc. 87–56 must classify the replacement portion of the asset under the same asset class as the disposed portion of the asset.

The partial disposition election is made on the taxpayer’s timely filed original Federal tax return, including extensions, for the taxable year in which the portion of the asset is disposed of by the taxpayer. This election may not be made or revoked by the filing of an application for a change in method of accounting. A taxpayer may revoke a partial disposition election by filing a request for a letter ruling and obtaining the consent of the Commissioner of Internal Revenue to revoke this election. The Commissioner may grant a request to revoke this election if the taxpayer acted reasonably and in good faith, and the revocation will not prejudice the interests of the Government. In deciding whether to grant such a request, the Commissioner anticipates applying standards similar to the standards under § 301.9100–3 of this chapter for granting extensions of time for making regulatory elections. If a taxpayer chooses to apply these final regulations to its taxable year beginning in 2012 or 2013, these final regulations also provide rules for making the partial disposition election for the portion of an asset disposed of by the taxpayer during those taxable years.

The final regulations also provide a special partial disposition rule to address the effect of an IRS disallowance of a taxpayer’s characterization of the replacement of a portion of an asset as a repair. When the IRS disallows a taxpayer’s repair deduction for the amount paid or incurred for the replacement of a portion of an asset and capitalizes such amount under § 1.1245–2 or § 1.1263(a)–3, the taxpayer may make the partial disposition election for the disposition of the portion of the asset to which the IRS’s adjustment pertains by filing an application for change in accounting method, provided the asset of which the disposed portion was a part is owned by the taxpayer at the beginning of the year of change (as defined for purposes of section 446(e)).

D. Gain or Loss

The final regulations also retain the rules in the 2013 proposed regulations for determining gain or loss upon the disposition of MACRS property. These rules are generally consistent with the disposition rules under § 1.168–6 of the proposed regulations on the Accelerated Cost Recovery System of former section 168 (ACRS) (which generally have been applied to MACRS property). If an asset is disposed of by sale, exchange, or involuntary conversion, gain or loss is recognized under the applicable
provisions of the Code. If an asset is disposed of by physical abandonment, loss is recognized in the amount of the asset’s adjusted depreciable basis at the time of the abandonment, unless an abandoned asset is subject to nonrecourse indebtedness in which case the asset is treated in the same manner as an asset disposed of by sale. Finally, if an asset is disposed of other than by sale, exchange, involuntary conversion, physical abandonment, or conversion to personal use (for example, when the asset is transferred to a supplies or scrap account), gain is not recognized but loss is recognized in the amount of the excess of the asset’s adjusted depreciable basis over its fair market value at the time of disposition. The same rules apply when the partial disposition rule applies to a disposition of a portion of an asset.

E. Determination of Basis of Disposed Asset

The final regulations retain the rule in the 2013 proposed regulations on determining the unadjusted depreciable basis of a disposed asset if that asset is in a multiple asset account and it is impracticable from the taxpayer’s records to determine the unadjusted depreciable basis of the disposed asset. In such a situation, the final regulations provide that the taxpayer may use any reasonable method that is consistently applied to all assets in the same multiple asset account. The IRS and the Treasury Department expect that reasonable methods are available that use information readily available or known to the taxpayer and do not necessitate undertaking an expensive study.

These final regulations also provide nonexclusive examples of reasonable methods. These examples are the same examples in the 2013 proposed regulations, except that the final regulations do not include discounting the cost of the replacement asset by the Consumer Price Index as an example of a reasonable method. After further review, the IRS and the Treasury Department have determined that the Producer Price Index for Finished Goods (and its successor, the Producer Price Index for Final Demand) more accurately reflects inflation for capital expenditures. The final regulations also clarify that discounting the cost of the replacement asset using the Producer Price Index for Finished Goods is a reasonable method only if the replacement asset is a restoration under § 1.263(a)–3(k) and is not a betterment under § 1.263(a)–3(j) or is not an adaptation to a new or different use under § 1.263(a)–3(l). The examples in the final regulations include the following: (1) Discounting the cost of the replacement asset to its placed-in-service year cost using the Producer Price Index for Finished Goods (or its successor, the Producer Price Index for Final Demand, or any other index designated by guidance in the Internal Revenue Bulletin (see § 601.601(d)(2) of the chapter) for purposes of the final regulations) where the replacement asset is a restoration under § 1.263(a)–3(k) and is not a betterment under § 1.263(a)–3(j) or is not an adaptation to a new or different use under § 1.263(a)–3(l); (2) a pro rata allocation of the unadjusted depreciable basis of the multiple asset account based on the replacement cost of the disposed asset and the replacement cost of all of the assets in the multiple asset account; and (3) a study allocating the cost of the asset to its individual components.

The final regulations also provide rules to determine the unadjusted depreciable basis of the disposed portion of an asset when the partial disposition rule applies. While these rules retain most of the rules in the 2013 proposed regulations, the final regulations were changed to clarify when a taxpayer may use a reasonable method for determining the unadjusted depreciable basis of a disposed portion of an asset. The IRS and the Treasury Department intended to allow taxpayers to use a reasonable method under the same circumstances as described above for determining the unadjusted depreciable basis of a disposed asset in a multiple asset account. However, the 2013 proposed regulations did not reflect this intent. Consequently, the final regulations clarify that a taxpayer may use any reasonable method for determining the unadjusted depreciable basis of the disposed portion of the asset only if it is impracticable from the taxpayer’s records to determine such unadjusted depreciable basis. If a taxpayer disposes of more than one portion of the same asset and it is impracticable from the taxpayer’s records to determine the unadjusted depreciable basis of the first disposed portion of the asset, the reasonable method used by the taxpayer must be consistently applied to all portions of the same asset for purposes of determining the unadjusted depreciable basis of each disposed portion of the asset. If the asset, a portion of which is disposed of, is in a multiple asset account, the reasonable method used by the taxpayer must be consistently applied to all assets and portions of assets in the same multiple asset account. Finally, the final regulations provide nonexclusive examples of reasonable methods that are similar to those discussed in the preceding paragraph.

F. Identification of Disposed Asset

The final regulations retain the rules in the 2013 proposed regulations for determining the placed-in-service year of a disposed asset. In general, a taxpayer must use the specific identification method. Under this method, the taxpayer can determine when the asset disposed of was placed in service. If an asset is in a multiple asset account and it is impracticable from the taxpayer’s records to determine the particular year in which the asset was placed in service by the taxpayer, the final regulations allow the taxpayer to identify the asset by using the following: A first-in, first-out (FIFO) method, a modified FIFO method, a mortality dispersion table if the asset is a mass asset, or any other method designated by the Secretary in published guidance. A last-in, first-out (LIFO) method is not permitted. These rules also apply when the partial disposition rule applies to a disposition of a portion of an asset and it is impracticable from the taxpayer’s records to determine the particular taxable year in which the asset was placed in service by the taxpayer. The final regulations provide an additional example of the LIFO method, which is impermissible.

III. General Asset Accounts Under § 1.168(i)–1

Section 168(i)(4) provides that, under regulations, a taxpayer may maintain one or more general asset accounts for any MACRS property. Except as provided in regulations, all proceeds realized on any disposition of property in a general asset account shall be included in income as ordinary income. The final regulations generally retain all of the provisions in the 2013 proposed regulations for general asset accounts. The final regulations apply only to assets for which the taxpayer has made an election to account for the assets in general asset accounts. Each general asset account effectively is treated as the asset.

A. Establishing General Asset Accounts

The final regulations retain the rules in the 2013 proposed regulations for establishing general asset accounts. The final regulations provide that assets may be grouped into one or more general asset accounts. In general, each general asset account must include assets that have the same depreciation method, recovery period, and convention, and
are placed in service in the same taxable year. However and as provided in the 2013 proposed regulations, the final regulations provide special rules in certain circumstances for establishing general asset accounts. For example, assets eligible for the additional first year depreciation deduction cannot be grouped with assets ineligible for the additional first year depreciation deduction. Also, assets eligible for the additional first year depreciation deduction may be grouped only with assets eligible for the same percentage of the additional first year depreciation.

B. Depreciation of a General Asset Account

The final regulations retain the rules in the 2013 proposed regulations for determining depreciation for each general asset account. The final regulations explain how to determine depreciation for a general asset account when all the assets in the account are eligible for the additional first year depreciation deduction and when all the assets in the account are not eligible for that deduction.

C. Disposition of an Asset From a General Asset Account

1. Disposition Definition

The final regulations retain the definition of “disposition” that is set forth in the 2013 proposed regulations. This definition is the same as the definition of “disposition” that was previously discussed under the disposition rules for MACRS property under § 1.168(i)–8. That is, a disposition occurs when ownership of the asset is transferred or when the asset is permanently withdrawn from use either in the taxpayer’s trade or business or in the production of income. A disposition includes the sale, exchange, retirement, physical abandonment, or destruction of an asset. A disposition also includes the retirement of a structural component (or a portion thereof) of a building only if the partial disposition rule (discussed in III.C.4) applies to such structural component (or a portion thereof). Finally, the manner of disposition (for example, abnormal retirement or normal retirement) is not taken into consideration in determining whether a disposition occurs or gain or loss is recognized.

2. Determining the Appropriate Disposed Asset

The final regulations also retain the rules in the 2013 proposed regulations for determining the disposed asset included in a general asset account for tax disposition purposes. These rules are the same as those previously discussed for determining the disposed asset for purposes of § 1.168(i)–8.

In general, the facts and circumstances of each disposition are considered in determining the appropriate disposed asset included in a general asset account. However, the asset for tax disposition purposes may not consist of items placed in service by the taxpayer on different dates (without taking into account the applicable convention under section 168(d)). Further, the unit of property determined under § 1.263(a)–3(e) or in published guidance in the Internal Revenue Bulletin under section 263(a) does not apply for purposes of determining what is the appropriate disposed asset.

In addition to these general rules, the final regulations retain the special rules in the 2013 proposed regulations for certain types of properties. These special rules are the same as the previously discussed special rules for determining the appropriate disposed asset under § 1.168(i)–8. The final regulations provide special rules for determining the appropriate disposed asset that is included in a general asset account and that is: (a) A building (including its structural components); (b) a building that includes two or more condominium or cooperative units; (c) an item properly included in one of the asset classes 00.11 through 00.4 of Rev. Proc. 87–56 (1987–2 CB 674) or classified in one of the categories under section 168(e)(3) (other than a category that includes buildings or structural components; for example, retail motor fuels outlet and qualified leasehold improvement property); or (d) an improvement or addition to an existing asset.

3. Disposition Rules

The final regulations retain the disposition rules in the 2013 proposed regulations. Immediately before any disposition of an asset (or a portion thereof) in a general asset account, the final regulations provide that the asset (or a portion thereof) is treated as having an adjusted depreciable basis of zero for purposes of section 1011. Therefore, no loss is realized upon the disposition of the asset (or a portion thereof). The final regulations also provide that any amount realized on a disposition generally is recognized as ordinary income. Further, the final regulations provide that the unadjusted depreciable basis and depreciation reserve of the general asset account are not affected by the disposition. Accordingly, a taxpayer continues to depreciate the general asset account, including the disposed asset (or a portion thereof), as though no disposition occurred.

The final regulations also allow a taxpayer to terminate general asset account treatment upon certain dispositions. Under the final regulations, a taxpayer may elect to recognize gain or loss for a general asset account when the taxpayer disposes of all of the assets, the last asset, or the remaining portion of the last asset in the account.

The final regulations further allow a taxpayer to elect to terminate general asset account treatment for an asset in a general asset account when the taxpayer disposes of the asset in a qualifying disposition. A qualifying disposition is a disposition that does not involve all the assets, the last asset, or the remaining portion of the last asset, remaining in a general asset account and that is: (1) A direct result of a fire, storm, shipwreck, or other casualty, or from theft; (2) a charitable contribution for which a deduction is allowable under section 170; (3) a direct result of a cessation, termination, or disposition of a business, manufacturing, or other income producing process, operation, facility, plant, or other unit (other than by transfer to a supplies, scrap, or similar account); or (4) generally a transaction to which a nonrecognition section of the Code applies. If a taxpayer elects to terminate general asset account treatment for an asset disposed of in a qualifying disposition, the taxpayer must remove the disposed asset from the general asset account and adjust the unadjusted depreciable basis and depreciation reserve of the account.

The final regulations retain the rules in the 2013 proposed regulations on the manner of making (1) the election to terminate the general asset account upon the disposition of all of the assets, the last asset, or the remaining portion of the last asset in that general asset account, or (2) the qualifying disposition election. The final regulations provide that a taxpayer making either of these elections must apply section 280B and § 1.280B–1 to determine whether and to what extent gain or loss is recognized. Generally, a taxpayer makes these elections by reporting the gain, loss, or other deduction on the taxpayer’s timely filed original Federal tax return (including extensions) for the taxable year in which the disposition occurs.

In the case of a loss sustained on account of the demolition of a structure to which section 280B and § 1.280B–1 apply, however, the loss is capitalized to the land on which the demolished structure was located, and no gain or loss is reported at the time of
demolition. Nevertheless, a taxpayer generally will report a depreciation deduction for the demolished structure for the taxable year in which the demolition occurs. Accordingly, the final regulations clarify that a taxpayer makes the election to terminate the general asset account or the qualifying disposition election by ending depreciation for the demolished structure at the time of disposition (taking into account the applicable convention) and reporting the depreciation amount for that structure for the taxable year in which the disposition occurs on the taxpayer’s timely filed original Federal tax return (including extensions) for that taxable year.

For assets in general asset accounts, the final regulations also require a taxpayer to terminate general asset account treatment for an asset that is disposed of in a transaction subject to section 167(i)(7)(B), section 1031, or section 1033, disposed of in an abusive transaction described under the final regulations, or used for any personal use. In such a case, the taxpayer must remove the disposed asset from the general asset account and adjust the unadjusted depreciable basis and depreciation reserve of the account.

In addition, the final regulations require a partnership to terminate its general asset accounts upon the technical termination of the partnership under section 708(b)(1)(B). If there is a redetermination of basis of an asset in a general asset account (for example, due to contingent purchase price or discharge of indebtedness), the final regulations provide that the general asset account election for the asset also applies to the increase or decrease in basis and require the taxpayer to establish a new general asset account for that increase or decrease in basis.

4. Partial Dispositions

The final regulations retain the partial disposition rule in the 2013 proposed regulations. Similar to the partial disposition rule under § 1.168(i)–8 that was previously discussed, the disposition rules in § 1.168(i)–1 apply to a partial disposition of an asset included in a general asset account.

Consequently, a disposition includes a disposition of a portion of an asset as a result of a casualty event described in section 165, a disposition of a portion of an asset for which gain (determined without regard to section 1245 or 1250) is not recognized in whole or in part under section 1031 or 1033, a transfer of a portion of an asset in a transaction described in section 168(i)(7)(B), a sale of a portion of an asset, or a disposition of a portion of an asset in a transaction described under the anti-abuse rules applicable to general asset accounts. For other transactions, a disposition includes a disposition of a portion of an asset only if the taxpayer makes the election to terminate the general asset account upon the disposition of all of the assets, the last asset, or the remaining portion of the last asset in that general asset account or makes the qualifying disposition election for that disposed portion. A separate partial disposition election is not provided for assets in a general asset account because a taxpayer can claim a loss upon the disposition of an asset (or a portion thereof) in a general asset account only when the taxpayer makes either one of these two elections.

D. Determination of Basis of Disposed Asset

The final regulations generally retain the rules in the 2013 proposed regulations on determining the unadjusted depreciable basis of an asset for which general asset account treatment is terminated. Because the general asset account is the asset, the final regulations provide that a taxpayer may use any reasonable method that is consistently applied to all assets in the same general asset account to determine the unadjusted depreciable basis of a disposed asset in that account if it is impracticable from the taxpayer’s records to determine the unadjusted depreciable basis of that asset. This rule also applies when the partial disposition rule applies to a disposition of a portion of an asset included in a general asset account. The IRS and the Treasury Department expect that reasonable methods are available that use information readily available or known to the taxpayer and do not necessitate undertaking an expensive study.

These final regulations also provide nonexclusive examples of reasonable methods. These examples are the same examples in the 2013 proposed regulations, except the final regulations do not include the Consumer Price Index as an example of a reasonable method for the reason previously discussed in II.E. Similar to the rules for determining the unadjusted depreciable basis of a disposed asset under § 1.168(i)–8, the final regulations clarify that, when discounting the cost of the replacement asset, using the Producer Price Index for Finished Goods (or its successor, the Producer Price Index for Final Demand) is a reasonable method. The exceptions to these rules include the following: (1) Discounting the cost of the replacement asset to its placed-in-service year cost using the Producer Price Index for Finished Goods (or its successor, the Producer Price Index for Final Demand, or any other index designated by guidance in the Internal Revenue Bulletin (see § 601.601(d)(2) of the chapter) only if the replacement asset is a restoration under § 1.263(a)–3(k) and is not a betterment under § 1.263(a)–3(j) or is not an adaptation to a new or different use under § 1.263(a)–3(l); (2) a pro rata allocation of the unadjusted depreciable basis of the general asset account based on the replacement cost of the disposed asset and the replacement cost of all of the assets in the general asset account; and (3) a study allocating the cost of the asset to its individual components.

E. Identification of Disposed Asset

The final regulations retain the rules in the 2013 proposed regulations for determining the placed-in-service year of an asset for which general asset account treatment is terminated. These rules are the same as those previously discussed for identifying the placed-in-service year of the disposed asset for purposes of § 1.168(i)–8: The specific identification method, the FIFO method, the modified FIFO method, a mortality dispersion table if the asset is a mass asset, or any other method designated by the Secretary in published guidance. A LIFO method is not permitted. These rules also apply when the partial disposition rules apply to a disposition of a portion of an asset included in a general asset account. The final regulations provide an additional example of the LIFO method, which is impermissible.

IV. Accounting for MACRS Property Under § 1.168(i)–7

The final regulations retain the rule in the 2013 proposed regulations regarding how to account for a disposed portion of an asset. The final regulations under § 1.168(i)–8 provide that if a taxpayer disposes of a portion of an asset and the partial disposition rule applies to that disposition, the taxpayer must account for the disposed portion in a single asset account beginning in the taxable year in which the disposition occurs. This rule also is provided in the final regulations under § 1.168(i)–7.

V. Conforming Changes

The final regulations also amend §§ 1.165–2, 1.168(i)–7, 1.263(a)–3, and 1.1016–3 to replace references to the temporary regulations and the 2013 proposed regulations with references to these final regulations.
VI. Applicability Dates

The final regulations apply to taxable years beginning on or after January 1, 2014. Alternatively, a taxpayer may choose to apply the final regulations to taxable years beginning on or after January 1, 2012.

A taxpayer also may choose to rely on the provisions of the 2013 proposed regulations for taxable years beginning on or after January 1, 2012, and beginning before January 1, 2014. Finally, a taxpayer may choose to apply the temporary regulations to taxable years beginning on or after January 1, 2012, and beginning before January 1, 2014.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866, as supplemented by Executive Order 13563. Therefore, a regulatory assessment is not required. It also has been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations, and because these regulations do not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to section 7805(f) of the Code, the 2013 proposed regulations preceding this regulation were submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business, and no comments were received.

Statement of Availability for IRS Document

Drafting Information

The principal author of these regulations is Kathleen Reed, Office of the Associate Chief Counsel (Income Tax and Accounting). However, other personnel from the IRS and the Treasury Department participated in their development.

§ 1.168(i)–0T [Removed]

■ Par. 4. Section 1.168(i)–0T is removed.

■ Par. 5. Section 1.168(i)–1 is amended by revising paragraphs (a) through (l)(1), and (m) to read as follows:

§ 1.168(i)–1 General asset accounts.

(a) Scope. This section provides rules for general asset accounts under section 168(i)(4). The provisions of this section apply only to assets for which an election has been made under paragraph (l) of this section.

(b) Definitions. For purposes of this section, the following definitions apply:

(1) Unadjusted depreciable basis has the same meaning given such term in § 1.168(b)–1(a)(3).

(2) Unadjusted depreciable basis of the general asset account is the sum of the unadjusted depreciable bases of all assets included in the general asset account.

(3) Adjusted depreciable basis of the general asset account is the unadjusted depreciable basis of the general asset account less the adjustments to basis described in section 1016(a)(2) and (3).

(4) Building has the same meaning as that term is defined in § 48.168(i)(1).

(5) Expensed cost is the amount of any allowable credit or deduction treated as a deduction allowable for depreciation or amortization for purposes of section 1245 (for example, a credit allowable under section 30 or a deduction allowable under section 179,
section 179A, or section 190). Expensed cost does not include any additional first year depreciation deduction.

6 Mass assets is a mass or group of individual items of depreciable assets—

(i) That are not necessarily homogenous;

(ii) Each of which is minor in value relative to the total value of the mass or group;

(iii) Numerous in quantity;

(iv) Usually accounted for only on a total dollar quantity basis;

(v) With respect to which separate identification is impracticable; and

(vi) Placed in service in the same taxable year.

7 Portion of an asset is any part of an asset that is less than the entire asset as determined under paragraph (e)(2)(viii) of this section.

8 Remaining adjusted depreciable basis of the general asset account is the unadjusted depreciable basis of the general asset account less the amount of the additional first year depreciation deduction allowed or allowable, whichever is greater, for the general asset account.

9 Structural component has the same meaning as that term is defined in §1.48–1(e)(2).

(c) Establishment of general asset accounts—

(1) Assets eligible for general asset accounts—

(i) General rules. Assets that are subject to either the general depreciation system of section 168(a) or the alternative depreciation system of section 168(g) may be accounted for in one or more general asset accounts. An asset is included in a general asset account only to the extent of the asset’s unadjusted depreciable basis. However, an asset is not to be included in a general asset account if the asset is used both in a trade or business or for the production of income and in a personal activity at any time during the taxable year in which the asset is placed in service by the taxpayer or if the asset is placed in service and disposed of during the same taxable year.

(ii) Special rules for assets generating foreign source income. (A) Assets that generate foreign source income, both United States and foreign source income, or combined gross income of a foreign sales corporation (as defined in former section 922), domestic international sales corporation (as defined in section 992(a), or possession corporation (as defined in section 936) and its related supplier may be included in a general asset account if the requirements of paragraph (c)(2)(i) of this section are satisfied. If, however, the inclusion of these assets in a general asset account results in a substantial distortion of income, the Commissioner may disregard the general asset account election and make any reallocations of income or expense necessary to clearly reflect income.

(B) A general asset account shall be treated as a single asset for purposes of applying the rules in §1.861–9T(g)(3) (relating to allocation and apportionment of interest expense under the asset method). A general asset account that generates income in more than one grouping of income (statutory and residual) is a multiple category asset (as defined in §1.861–9T(g)(3)(ii)), and the income yield from the general asset account must be determined by applying the rules for multiple category assets as if the general asset account were a single asset.

(2) Grouping assets in general asset accounts—

(i) General rules. If a taxpayer makes the election under paragraph (l) of this section, assets that are subject to the election are grouped into one or more general asset accounts. Assets that are eligible to be grouped into a single general asset account may be divided into more than one general asset account. Each general asset account must include only assets that—

(A) Have the same applicable depreciation method;

(B) Have the same applicable recovery period;

(C) Have the same applicable convention; and

(D) Are placed in service by the taxpayer in the same taxable year.

(ii) Special rules. In addition to the general rules in paragraph (c)(2)(i) of this section, the following rules apply when establishing general asset accounts—

(A) Assets subject to the mid-quarter convention may only be grouped into a general asset account with assets that are placed in service in the same quarter of the taxable year;

(B) Assets subject to the mid-month convention may only be grouped into a general asset account with assets that are placed in service in the same month of the taxable year;

(C) Passenger automobiles for which the depreciation allowance is limited under section 280F(a) must be grouped into a separate general asset account;

(D) Assets not eligible for any additional first year depreciation deduction (including assets for which the taxpayer elected not to deduct the additional first year depreciation) provided by, for example, section 168(k), section 166(f), section 166(m), section 166(n), section 1400L(b), or section 1400N(d), must be grouped into a separate general asset account;

(E) Assets eligible for the additional first year depreciation deduction may only be grouped into a general asset account with assets for which the taxpayer claimed the same percentage of the additional first year depreciation (for example, 30 percent, 50 percent, or 100 percent);

(F) Except for passenger automobiles described in paragraph (c)(2)(ii)(C) of this section, listed property (as defined in section 280F(d)(4)) must be grouped into a separate general asset account;

(G) Assets for which the depreciation allowance for the placed-in-service year is not determined by using an optional depreciation table (for further guidance, see section 8 of Rev. Proc. 87–57, 1987–2 CB 687, 693 (see §601.601(d)(2) of this chapter)) must be grouped into a separate general asset account;

(H) Mass assets that are or will be subject to paragraph (b)(2)(iii)(A) of this section (change in use results in a shorter recovery period or a more accelerated depreciation method) for which the depreciation allowance for the year of change (as defined in §1.166(i)(4)(a)) is not determined by using an optional depreciation table must be grouped into a separate general asset account; and

(i) Assets subject to paragraph (b)(2)(iii)(A) of this section (change in use results in a shorter recovery period or a more accelerated depreciation method) for which the depreciation allowance for the year of change (as defined in §1.166(i)(4)(a)) is not determined by using an optional depreciation table must be grouped into a separate general asset account.

(3) Examples. The following examples illustrate the application of this paragraph (c):

Example 1. In 2014, J, a proprietorship with a calendar year-end, purchases and places in service one item of equipment that costs $550,000. This equipment is section 179 property and also is 5-year property under section 168(e). On its Federal tax return for 2014, J makes an election under section 179 to expense the cost of any section 179 property and also is 5-year property costs $550,000. This equipment is section 179 property and also is 5-year property.

Assume that J does not make the election under section 179 to expense the cost of any section 179 property and also is 5-year property. On its Federal tax return for 2014, K does not make an election under section 179 to expense the cost of any section 179 property and also is 5-year property.
In accordance with paragraph (c)(2) of this section, K establishes 100 general asset accounts and includes one item of equipment in each general asset account.

Example 5. M, a fiscal-year corporation with a taxable year ending June 30, purchases and places in service ten items of new equipment in October 2014, and purchases and places in service five other items of new equipment in February 2015. On its Federal tax return for the taxable year ending June 30, 2015, M does not make an election under section 179 to expense the cost of any of these items of equipment and does make an election under paragraph (l) of this section to include all of these items of equipment in a general asset account. The computers are listed property, the automobiles are listed property, and K cannot include them in one general asset account because the computers and automobiles are listed property. Further, even though the computers and automobiles are listed property, L cannot include them in one general asset account because the automobiles also are subject to section 280F(a). L depreciates its 5-year property placed in service in 2014 using the optional depreciation table that corresponds with the general depreciation system, the 200-percent declining balance method, a 5-year recovery period, and the half-year convention. Although the computers, automobiles, and forklifts are 5-year property, L cannot include all of them in one general asset account because the computers and automobiles are listed property. Further, even though the computers and automobiles are listed property, L cannot include them in one general asset account because the automobiles also are subject to section 280F(a). In accordance with paragraph (c)(2) of this section, L establishes three general asset accounts: One for the computers, one for the automobiles, and one for the forklifts.

(4) Special rule for passenger automobiles. For purposes of applying section 280F(a), the depreciation allowance for a general asset account established for passenger automobiles is limited for each taxable year to the amount prescribed in section 280F(a) multiplied by the excess of the number of automobiles originally included in the account over the number of automobiles disposed of during the taxable year or in any prior taxable year in a transaction described in paragraph (e)(3)(vi) (transactions subject to section 1031 or section 1033), paragraph (e)(3)(v) (technical termination of a partnership), paragraph (e)(3)(vii) (anti-abuse rule), paragraph (g) (assets subject to recapture), or paragraph (h)(1) (conversion to any personal use) of this section.
A lessee of leased property that made an improvement to that property, has a depreciable basis in the improvement, made an election under paragraph (l) of this section to include the improvement in a general asset account, and disposes of the improvement, or disposes of a portion of the improvement as described in paragraph (e)(1)(ii) of this section, before or upon the termination of the lease with the lessee. See section 168(i)(8)(B); and

(B) A lessee of leased property that made an improvement to that property, has a depreciable basis in the improvement, made an election under paragraph (l) of this section to include the improvement in a general asset account, and disposes of the improvement, or disposes of a portion of the improvement as described in paragraph (e)(1)(ii) of this section, before or upon the termination of the lease.
restaurant property, and qualified retail improvement property), each item is the asset, provided that paragraph (e)(2)(viii)(B)(4) of this section does not apply to the item. For example, each desk is the asset, each computer is the asset, and each qualified smart electric meter is the asset.

(4) If the taxpayer places in service an improvement or addition to an asset after the taxpayer placed the asset in service, the improvement or addition and, if applicable, its structural components are a separate asset.

(ix) Examples. The following examples illustrate the application of this paragraph (e)(2):

Example 1. A, a calendar-year partnership, maintains one general asset account for one office building that cost $10 million. A discovers a leak in the roof of the building and decides to replace the entire roof. The roof is a structural component of the building. In accordance with paragraph (e)(2)(viii)(B)(1) of this section, the office building, including its structural components, is the asset for disposition purposes. The retirement of the replaced roof is not a disposition of a portion of an asset as described in paragraph (e)(1)(ii) of this section. Thus, the retirement of the replaced roof is not a disposition under paragraph (e)(1) of this section. As a result, A continues to depreciate the $10 million cost of the general asset account. If B must capitalize the amount paid for the replacement roof pursuant to § 1.263(a)–3, the retirement of the replaced roof is a separate asset for disposition purposes pursuant to paragraph (e)(2)(viii)(B)(4) of this section and for depreciation purposes pursuant to section 168(l)(6).

Example 2. B, a calendar-year commercial airline company, maintains one general asset account for five aircraft that cost a total of $50 million. These aircraft are described in asset class 45.0 of Rev. Proc. 87–56. B replaces the existing engines on one of the aircraft with new engines. Assume each aircraft is a unit of property as determined under § 1.263(a)–3(e)(3) and each engine of an aircraft is a major component or an substantial structural part of the aircraft as determined under § 1.263(a)–3(k)(6). Assume also that B treats each engine as the asset for disposition purposes in accordance with paragraph (e)(2)(viii) of this section. The retirement of the replaced engines is not a disposition of a portion of an asset as described in paragraph (e)(1)(ii) of this section. Thus, the retirement of the replaced engines is not a disposition under paragraph (e)(1) of this section. As a result, B continues to depreciate the $50 million cost of the general asset account. If B must capitalize the amount paid for the replacement engines pursuant to § 1.263(a)–3, the replacement engines are a separate asset for disposition purposes pursuant to paragraph (e)(2)(viii)(B)(4) of this section and for depreciation purposes pursuant to section 168(l)(6).

Example 3. (i) R, a calendar-year corporation, maintains one general asset account for ten machines. The machines cost a total of $10,000 and are placed in service in June 2014. Of the ten machines, one machine costs $8,200 and nine machines cost a total of $1,800. Assume R depreciates this general asset account using the optional depreciation convention that provides for the general depreciation system, the 200-percent declining balance method, a 5-year recovery period, and a half-year convention. R does not make a section 179 election for any of the machines, and all of the machines are not eligible for any first year depreciation deduction. As of January 1, 2015, the depreciation reserve of the account is $2,000 ($10,000 × 20%).

(ii) On February 8, 2015, R sells the machine that cost $8,200 to an unrelated party for $9,000. Under paragraph (e)(2)(ii) of this section, this machine has an adjusted depreciable basis of zero.

(iii) On its 2015 tax return, R recognizes the amount realized of $9,000 as ordinary income because such amount does not exceed the unadjusted depreciable basis of the general asset account ($10,000), plus any unexpensed cost for assets in the account ($0), less amounts previously recognized as ordinary income ($0). Moreover, the unadjusted depreciable basis and depreciation reserve of the account are not affected by the disposition of the machine. Thus, the depreciation allowance for the account in 2015 is $3,200 ($10,000 × 32%).

Example 4. (i) The facts are the same as in Example 3. In addition, on June 4, 2016, R sells seven machines to an unrelated party for a total of $1,100. In accordance with paragraph (e)(2)(ii) of this section, these machines have an adjusted depreciable basis of zero.

(ii) On its 2016 tax return, R recognizes $1,000 as ordinary income (the unadjusted depreciable basis of $10,000, plus the unexpensed cost of $0, less the amount of $9,000 previously recognized as ordinary income). The recognition and character of the excess amount realized of $100 ($1,100 – $1,000) are determined under applicable provisions of the Code other than section 1245 (such as section 1231). Moreover, the unadjusted depreciable basis and depreciation reserve of the account are not affected by the disposition of the machines. Thus, the depreciation allowance for the account in 2016 is $1,920 ($10,000 × 19.2%).

(3) Special rules—(i) In general. This paragraph (e)(3) provides the rules for terminating general asset account treatment upon certain dispositions. While the rules under paragraphs (e)(3)(ii) and (iii) of this section are optional rules, the rules under paragraphs (e)(3)(iv), (v), (vi), and (vii) of this section are mandatory rules. A taxpayer elects to apply paragraph (e)(3)(ii) or (iii) of this section by reporting the gain, loss, or other deduction on the taxpayer's timely filed original Federal tax return, including extensions, for any additional first year in which the disposition occurs. However, if the loss is on account of the demolition of a structure to which section 280B and § 1.280B–1 apply, a taxpayer elects to apply paragraph (e)(3)(ii) or (iii) of this section by ending depreciation for the structure at the time of the disposition of the structure, taking into account the convention applicable to the general asset account in which the demolished structure was included, and reporting the amount of depreciation for that structure for the taxable year in which the disposition occurs on the taxpayer's timely filed original Federal tax return, including extensions, for that taxable year. A taxpayer may revoke the election to apply paragraph (e)(3)(ii) or (iii) of this section only by filing a request for a private letter ruling and obtaining the Commissioner's consent to revoke the election. The Commissioner may grant a request to revoke this election if the taxpayer acted reasonably and in good faith, and the revocation will not prejudice the interests of the Government. See generally § 301.9100–3 of this chapter. The election to apply paragraphs (e)(3)(ii) or (iii) of this section may not be made or revoked through the filing of an application for change in accounting method. For purposes of applying paragraphs (e)(3)(ii) through (vii) of this section, see paragraph (j) of this section for identifying an asset disposed of and its unadjusted depreciable basis. Solely for purposes of applying paragraphs (e)(3)(ii), (e)(3)(iv)(C), (e)(3)(v)(B), and (e)(3)(vii) of this section, the term asset is:

(A) The asset as determined under paragraph (e)(2)(viii) of this section; or

(B) The portion of such asset that is disposed of in a disposition described in paragraph (e)(1)(i) of this section.

(ii) Disposition of all assets remaining in a general asset account—(A) Optional termination of a general asset account. Upon the disposition of all of the assets, the last asset, or the remaining portion of the last asset in a general asset account, a taxpayer may apply this paragraph (e)(3)(ii) to recover the adjusted depreciable basis of the general asset account rather than having paragraph (e)(2) of this section apply. Under this paragraph (e)(3)(ii), the general asset account terminates and the amount of gain or loss for the general asset account is determined under section 1001(a) by taking into account the adjusted depreciable basis of the general asset account at the time of the disposition, as determined under the applicable convention for the general asset account. Whether and to what extent gain or loss is recognized is determined under other applicable provisions of the Code or the regulations under section 280B and § 1.280B–1. The character of the gain or loss is
determined under other applicable provisions of the Code, except that the amount of gain subject to section 1245 is limited to the excess of the depreciation allowed or allowable for the general asset account, including any expensed cost, over any amounts previously recognized as ordinary income under paragraph (e)(2) of this section, and the amount of gain subject to section 1250 is limited to the excess of the additional depreciation allowed or allowable for the general asset account, over any amounts previously recognized as ordinary income under paragraph (e)(2) of this section. 

(ii) On the date of disposition, the adjusted depreciable basis of the account is $768 (unadjusted depreciable basis of $2,000 less the depreciation allowed or allowable of $1,232). Thus, in 2016, J recognizes gain of $232 (amount realized of $1,000 less the adjusted depreciable basis of $768). The gain of $232 is subject to section 1245 to the extent of the depreciation allowed or allowable for the account (plus the expense cost for assets in the account) less the amounts previously recognized as ordinary income ($1,232 + $0 − $0 = $1,232). As a result, the entire gain of $232 is subject to section 1245.

(iii) Disposition of an asset in a qualifying disposition—(A) Optional determination of the amount of gain, loss, or other deduction. In the case of a qualifying disposition (described in paragraph (e)(3)(ii)(B) of this section) of an asset, a taxpayer may elect to apply this paragraph (e)(3)(iii) rather than having paragraph (e)(2) of this section apply. Under this paragraph (e)(3)(iii), general asset account treatment for the asset terminates as of the first day of the taxable year in which the qualifying disposition occurs, and the amount of gain, loss, or other deduction for the asset is determined under §1.168(i)–8 by taking into account the asset’s adjusted depreciable basis at the time of the disposition. The adjusted depreciable basis of the asset at the time of the disposition, as determined under the applicable convention for the general asset account in which the asset was included, equals the unadjusted depreciable basis of the asset less the depreciation allowed or allowable for the asset, computed by using the depreciation method, recovery period, and convention applicable to the general asset account in which the asset was included and by including the portion of the additional first year depreciation deduction claimed for the general asset account that is attributable to the asset disposed of. Whether and to what extent gain, loss, or other deduction is recognized or determined under other applicable provisions of the Code, including section 280B and §1.280B–1. The character of the gain, loss, or other deduction is determined under other applicable provisions of the Code, except that the amount of gain subject to section 1245 or section 1250 is limited to the lesser of—

1. The original unadjusted depreciable basis of the general asset account plus, in the case of section 1245 property originally included in the general asset account, any expensed cost; or
2. The cumulative amounts of gain previously recognized as ordinary income under either paragraph (e)(2) of this section or section 1245 or section 1250.

(B) Qualifying dispositions. A qualifying disposition is a disposition that does not involve all the assets, the last asset, or the remaining portion of the last asset remaining in a general asset account and that is—

1. A direct result of a fire, storm, shipwreck, or other casualty, or from theft;
2. A charitable contribution for which a deduction is allowable under section 170;
3. A direct result of a cessation, termination, or disposition of a business, manufacturing or other income producing process, operation, facility, plant, or other unit, other than by transfer to a supplies, scrap, or similar account; or

4. A transaction, other than a transaction described in paragraph (e)(3)(iv) (pertaining to transactions subject to section 168(l)(7)), paragraph (e)(3)(v) (pertaining to transactions subject to section 1031 or section 1033), paragraph (e)(3)(vi) (pertaining to technical terminations of partnerships), or paragraph (e)(3)(vii) (anti-abuse rule) of this section, to which a non-recognition section of the Internal Revenue Code applies (determined without regard to this section).

(C) Effect of a qualifying disposition on a general asset account. If the taxpayer elects to apply this paragraph (e)(3)(iii) to a qualifying disposition of an asset, then—

1. The asset is removed from the general asset account as of the first day of the taxable year in which the qualifying disposition occurs. For that taxable year, the taxpayer accounts for the asset in a single asset account in accordance with the rules under §1.168(i)–7(b);
2. The unadjusted depreciable basis of the general asset account is reduced by the unadjusted depreciable basis of the asset as of the first day of the taxable year in which the disposition occurs;
3. The depreciation reserve of the general asset account is reduced by the depreciation allowed or allowable for the asset as of the end of the taxable year immediately preceding the year of disposition, computed by using the depreciation method, recovery period, and convention applicable to the...
general asset account in which the asset was included and by including the portion of the additional first year depreciation deduction claimed for the general asset account that is attributable to the asset disposed of; and

(4) For purposes of determining the amount of gain realized on subsequent dispositions that is subject to ordinary income treatment under paragraph (e)(2)(ii) of this section, the amount of any expensed cost with respect to the asset is disregarded.

(D) Examples. The following examples illustrate the application of this paragraph (e)(3)(iii):

Example 1. (i) Z, a calendar-year corporation, maintains one general asset account for 12 machines. Each machine costs $15,000 and is placed in service in 2014. Of the 12 machines, nine machines that cost a total of $135,000 are used in Z’s Kentucky plant, and three machines that cost a total of $45,000 are used in Z’s Ohio plant. Assume Z depreciates this general asset account using the optional depreciation table that corresponds with the general depreciation system, the 200-percent declining balance method, a 5-year recovery period, and the half-year convention. Z does not make a section 179 election for any of the machines, and all of the machines are not eligible for any additional first year depreciation deduction. As of December 31, 2015, the depreciation reserve for the account is $93,600.

(ii) On May 27, 2016, Z sells its entire manufacturing plant in Ohio to an unrelated party. The sales proceeds allocated to each of the three machines at the Ohio plant is $5,000. This transaction is a qualifying disposition under paragraph 1(e)(3)(iii)(B)(3) of this section, and Z elects to apply paragraph (e)(3)(iii) of this section.

(iii) For Z’s 2016 return, the depreciation allowance for the account is computed as follows. As of December 31, 2015, the depreciation reserve for the account is decreased from $93,600 to $70,200 ($93,600 less the depreciation allowed or allowable of $23,400 for the three machines at the Ohio plant is $23,400).

(iv) For Z’s 2016 return, gain or loss for the retired roof is determined as follows. The depreciation allowed or allowable in 2014 for the retired roof is $925,198, which is subject to section 1231. A decides to replace the entire roof. The roof is replaced in June 2014. The roof is a structural component of the building. Because the roof was damaged as a result of a casualty event described in section 165, the partial disposition rule provided under paragraph (e)(1)(i) of this section applies to the roof. Although the office building, including its structural components, is the asset for disposition purposes, the partial disposition rule provides that the retirement of the replaced roof is a disposition under paragraph (e)(1) of this section. This retirement is a qualifying disposition under paragraph (e)(3)(iii)(B)(1) of this section, and Z elects to apply paragraph (e)(3)(iii) of this section for the retirement of the damaged roof.

(iii) Of the $20 million cost of the office building, assume $1 million is the cost of the retired roof.

(iv) For A’s 2014 return, the depreciation allowance for the account is composed as follows. As of December 31, 2013, the depreciation allowed or allowable for the retired roof is $63,050. Thus, as of January 1, 2014, the unadjusted depreciable basis of the account is reduced from $20,000,000 to $19,936,950 ($20,000,000 less the unadjusted depreciable basis of $1,000,000 for the retired roof), and the depreciation reserve of the account is decreased from $1,261,000 to $1,197,950 ($1,261,000 less the depreciation allowed or allowable of $63,050 for the retired roof as of December 31, 2013).

Consequently, the depreciation allowance for the account in 2014 is $487,160 ($19,000,000 × 2.564%).

(v) For A’s 2014 return, gain or loss for the retired roof is determined as follows. The depreciation allowed or allowable in 2014 for the retired roof is $11,175,200 ($1,197,950 × 2.564%), which is subject to section 1231.

(vi) If A must capitalize the amount paid for the replacement roof under §1.168(a)–3, the replacement roof is a separate asset for depreciation purposes pursuant to section 168(i). Thus, the depreciation calculated in a general asset account, the replacement roof is a separate asset for disposition purposes pursuant to paragraph (e)(2)(viii)(B)(4) of this section. If A includes the replacement roof in a single asset account or a multiple asset account under §1.168(i)–7, the replacement roof is a separate asset for disposition purposes pursuant to §1.168(i)–8(c)(4)(iii)(D).

(iv) Transactions subject to section 168(i)(7)–(A). In general. If a taxpayer transfers one or more assets, or a portion of such asset, in a general asset account in a transaction described in section 168(i)(7)(B) [pertaining to treatment of transferees in certain nonrecognition transactions], the taxpayer (the transferor) and the transferee must apply this paragraph (e)(3)(iv) to the asset or the portion of such asset, instead of applying paragraph (e)(2), (e)(3)(i), or (e)(3)(iii) of this section. The transferee is bound by the transferor’s election under paragraph (i) of this section for the portion of the transferee’s basis in the asset or the portion of such asset that does not exceed the transferor’s adjusted depreciable basis of the general asset account or the asset or the portion of such asset, as applicable, as determined under paragraph (e)(3)(iv)(B)(2) or (C)(2) of this section, as applicable.

(B) All assets remaining in general asset account are transferred. If a taxpayer transfers all the assets, the last asset, or the remaining portion of the last asset in a general asset account in a transaction described in section 168(i)(7)(B)–

(1) The taxpayer (the transferor) must terminate the general asset account on the date of the transfer. The allowable depreciation deduction for the general asset account for the transferor’s taxable year in which the section 168(i)(7)(B) transaction occurs is computed by using the depreciation method, recovery period, and convention applicable to the general asset account. This allowable depreciation deduction is allocated between the transferor and the transferee on a monthly basis. This allocation is made in accordance with the rules in §1.168(d)–1(b)(7)(ii) for allocating the depreciation deduction between the transferor and the transferee.

(2) The transferee must establish a new general asset account for all the assets, the last asset, or the remaining portion of the last asset, in the taxable year in which the section 168(i)(7)(B) transaction occurs for the portion of its basis in the assets that does not exceed the transferor’s adjusted depreciable basis of the general asset account in which all the assets, the last asset, or the remaining portion of the last asset, were included. The transferor’s adjusted depreciable basis of this general asset account is equal to the adjusted depreciable basis of the asset, or portion of the asset, as of the beginning of the transferor’s taxable year in which the transaction occurs,
decreased by the amount of depreciation allocable to the transferor for the year of the transfer, as determined under paragraph (e)(3)(iv)(B)(1) of this section. The transferee is treated as the transferor for purposes of computing the allowable depreciation deduction for the new general asset account under section 168. The new general asset account must be established in accordance with the rules in paragraph (c) of this section, except that the unadjusted depreciable bases of all the assets, the last asset, or the remaining portion of the last asset, and the greater of the depreciation allowed or allowable for all the assets, the last asset, or the remaining portion of the last asset, including the amount of depreciation for the transferred assets that is allocable to the transferor for the year of the transfer, are included in the newly established general asset account. Consequently, this general asset account in the year of the transfer will have a beginning balance for both the unadjusted depreciable basis and the depreciation reserve of the general asset account; and

(3) For purposes of section 168 and this section, the transferee treats the portion of its basis in the assets that exceeds the transferor’s adjusted depreciable basis of the general asset account in which all the assets, the last asset, or the remaining portion of the last asset, were included, as determined under paragraph (e)(3)(iv)(B)(2) of this section, as a separate asset that the transferee placed in service on the date of the transfer. The transferee accounts for this asset under § 1.168(i)–7 or may make an election under paragraph (l) of this section to include the asset in a general asset account.

(C) Not all assets remaining in a general asset account are transferred. If a taxpayer transfers an asset in a general asset account in a transaction described in section 168(i)(7)(B) and paragraph (e)(3)(iv)(B) of this section does not apply to this asset—

(1) The taxpayer (the transferor) must remove the transferred asset from the general asset account in which the asset is included, as of the first day of the taxable year in which the section 168(i)(7)(B) transaction occurs. In addition, the adjustments to the general asset account described in paragraphs (e)(3)(iii)(C)(2) through (4) of this section must be made. The allowable depreciation deduction for the asset for the transferor’s taxable year in which the section 168(i)(7)(B) transaction occurs is computed by using the depreciation method, recovery period, and convention applicable to the general asset account in which the asset was included. This allowable depreciation deduction is allocated between the transferor and the transferee on a monthly basis. This allocation is made in accordance with the rules in § 1.168(d)–1(b)(7)(ii) for allocating the depreciation deduction between the transferor and the transferee;

(2) The transferee must establish a new general asset account for the asset in the taxable year in which the section 168(i)(7)(B) transaction occurs for the portion of its basis in the asset that does not exceed the transferor’s adjusted depreciable basis of the asset. The transferor’s adjusted depreciable basis of this asset is equal to the adjusted depreciable basis of the asset as of the beginning of the transferor’s taxable year in which the transaction occurs, decreased by the amount of depreciation allocable to the transferor for the year of the transfer, as determined under paragraph (e)(3)(iv)(C)(1) of this section. The transferee is treated as the transferor for purposes of computing the allowable depreciation deduction for the new general asset account under section 168. The new general asset account must be established in accordance with the rules in paragraph (c) of this section, except that the unadjusted depreciable basis of the asset, and the greater of the depreciation allowed or allowable for the asset, including the amount of depreciation for the transferred asset that is allocable to the transferor for the year of the transfer, are included in the newly established general asset account. Consequently, this general asset account in the year of the transfer will have a beginning balance for both the unadjusted depreciable basis and the depreciation reserve of the general asset account; and

(3) For purposes of section 168 and this section, the transferee treats the portion of its basis in the asset that exceeds the transferor’s adjusted depreciable basis of the asset, as determined under paragraph (e)(3)(iv)(C)(2) of this section, as a separate asset that the transferee placed in service on the date of the transfer. The transferee accounts for this asset under § 1.168(i)–7 or may make an election under paragraph (l) of this section to include the asset in a general asset account.

(v) Transactions subject to section 1031 or section 1033—(A) Like-kind exchange or involuntary conversion of all assets remaining in a general asset account. If all the assets, the last asset, or the remaining portion of the last asset in a general asset account are transferred by a taxpayer in a like-kind exchange (as defined under § 1.168–6(b)(11)) or in an involuntary conversion (as defined under § 1.168–6(b)(12)), the taxpayer must apply this paragraph (e)(3)(v)(A) instead of applying paragraph (e)(2), (e)(3)(ii), or (e)(3)(iii) of this section. Under this paragraph (e)(3)(v)(A), the general asset account terminates as of the first day of the year of disposition (as defined in § 1.168(i)–6(b)(5)) and—

(1) The amount of gain or loss for the general asset account is determined under section 1001(a) by taking into account the adjusted depreciable basis of the general asset account at the time of disposition (as defined in § 1.168(i)–6(b)(3)). The depreciation allowance for the general asset account in the year of disposition is determined in the same manner as the depreciation allowance for the relinquished MACRS property (as defined in § 1.168(i)–6(b)(2)) in the year of disposition is determined under § 1.168(i)–6. The recognition and character of gain or loss are determined in accordance with paragraph (e)(2), (e)(3)(iii)(A) of this section, notwithstanding that paragraph (e)(3)(ii)(A) of this section is an optional rule; and

(2) The adjusted depreciable basis of the general asset account at the time of disposition is treated as the adjusted depreciable basis of the relinquished MACRS property.

(B) Like-kind exchange or involuntary conversion of less than all assets remaining in a general asset account. If an asset in a general asset account is transferred by a taxpayer in a like-kind exchange or in an involuntary conversion and if paragraph (e)(3)(v)(A) of this section does not apply to this asset, the taxpayer must apply this paragraph (e)(3)(v)(B) instead of applying paragraph (e)(2), (e)(3)(ii), or (e)(3)(iii) of this section. Under this paragraph (e)(3)(v)(B), general asset account treatment for the asset terminates as of the first day of the year of disposition (as defined in § 1.168(i)–6(b)(5)), and—

(1) The amount of gain or loss for the asset is determined by taking into account the asset’s adjusted depreciable basis at the time of disposition (as defined in § 1.168(i)–6(b)(3)). The adjusted depreciable basis of the asset at the time of disposition equals the unadjusted depreciable basis of the asset less the depreciation allowed or allowable for the asset, computed by using the depreciation method, recovery period, and convention applicable to the general asset account in which the asset was included and by including the portion of the additional first year depreciation deduction claimed for the general asset account that is attributable to the relinquished asset. The
depreciation allowance for the asset in the year of disposition is determined in the
same manner as the depreciation allowance for the relinquished MACRS
property (as defined in § 1.168(i)(6)(b)(2)) in the year of disposition is
determined under § 1.168(i)(6). The recognition and character of the gain or
loss are determined in accordance with paragraph (e)(3)(iii)(A) of this section,
notwithstanding that paragraph (e)(3)(iii) of this section is an optional
rule; and

(2) As of the first day of the year of
disposition, the taxpayer must remove
the relinquished asset from the general
asset account and make the adjustments
to the general asset account described in
paragraphs (e)(3)(iii)(C)(2) through (4) of
this section.

(vi) Technical termination of a
partnership. In the case of a technical
termination of a partnership under
section 708(b)(1)(B), the terminated
partnership must apply this paragraph
(e)(3)(vi) instead of applying paragraph
(e)(2), (e)(3)(ii), or (e)(3)(iii) of this
section. Under this paragraph (e)(3)(vi),
all of the terminated partnership’s
general asset accounts terminate as of
the date of its termination under section
708(b)(1)(B). The terminated partnership
computes the allowable depreciation
deduction for each of its general asset
accounts for the taxable year in which
the technical termination occurs by
using the depreciation method, recovery
period, and convention applicable to the
general asset account. The new
partnership is not bound by the
terminated partnership’s election under
paragraph (l) of this section.

(vii) Anti-abuse rule.—(A) In general.
If an asset in a general asset account is
disposed of by a taxpayer in a
transaction described in paragraph
(e)(3)(vi)(B) of this section, general
asset account treatment for the asset
terminates as of the first day of the
taxable year in which the disposition
occurs. Consequently, the taxpayer must
determine the amount of gain, loss, or
other deduction attributable to the
disposition in the manner described in
paragraph (e)(3)(iii)(A) of this section,
notwithstanding that paragraph
(e)(3)(iii)(A) of this section is an
optional rule, and must make the
adjustments to the general asset account
described in paragraphs (e)(3)(iii)(C)(1)
through (4) of this section.

(B) Abusive transactions. A
transaction is described in this
paragraph (e)(3)(vii)(B) if the transaction is not
described in paragraph (e)(3)(iv),
(e)(3)(v), or (e)(3)(vi) of this section, and
if the transaction is entered into, or
made, with a principal purpose of
achieving a tax benefit or result that
would not be available absent an
election under this section. Examples of
these types of transactions include—
(1) A transaction entered into with a
principal purpose of shifting income or
deductions among taxpayers in a
manner that would not be possible
absent an election under this section to
take advantage of differing effective tax
rates among the taxpayers; or
(2) An election made under this
section with a principal purpose of
disposing of an asset from a general
asset account to utilize an expiring net
operating loss or credit if the transaction is
not a bona fide disposition. The fact
that a taxpayer with a net operating loss
carryover or a credit carryover transfers
an asset to a related person or transfers
an asset pursuant to a lease or otherwise
transfers an asset pursuant to an arrangement
where the asset continues to be used or
is available for use by the taxpayer
pursuant to a lease or otherwise
indicates, absent strong evidence to the
contrary, that the transaction is
described in this paragraph

(f) Assets generating foreign source income.—(1) In general. This
paragraph (f) provides the rules for determining
the source of any income, gain, or loss
recognized, and the appropriate section
904(d) separate limitation category or
categories for any foreign source
income, gain, or loss recognized on a
disposition (within the meaning of
paragraph (e)(1) of this section) of an
asset in a general asset account that
consists of assets generating both United
States and foreign source income. These
rules apply only to a disposition to
which paragraph (e)(2)(g) (general
disposition rules), paragraph (e)(3)(i)(i)
(disposition of all assets remaining in
a general asset account), paragraph
(e)(3)(iii)(i) (disposition of an asset in
a qualifying disposition), paragraph
(e)(3)(v) (transactions subject to section
1031 or section 1033), or paragraph
(e)(3)(vii) (anti-abuse rule) of this
section applies. Solely for purposes
of applying this paragraph (f), the term
asset is:

(1) The asset as determined under
paragraph (e)(2)(vii) of this section; or
(2) The portion of such asset that is
disposed of in a disposition described in
paragraph (e)(1)(i) of this section.

(2) Source of ordinary income, gain,
or loss.—(i) Source determined by
allocation and apportionment of
depreciation allowed. The amount of
any ordinary income, gain, or loss that
is recognized on the disposition of an
asset in a general asset account must be
apportioned between United States and
foreign sources based on the allocation
and apportionment of the—

(A) Depreciation allowed for the
general asset account as of the end of
the taxable year in which the
disposition occurs if paragraph (e)(2) of
this section applies to the disposition;

(B) Depreciation allowed for the
general asset account as of the time
of disposition if the taxpayer applies
paragraph (e)(3)(ii) of this section to the
disposition of all assets, the last asset,
or the remaining portion of the last
asset, in the general asset account, or if
all the assets, the last asset, or the
remaining portion of the last asset, in
the general asset account are disposed of
in a transaction described in paragraph
(e)(3)(v)(A) of this section; or

(C) Depreciation allowed for the asset
disposed of for only the taxable year in
which the disposition occurs if the
taxpayer applies paragraph (e)(3)(iii) of
this section to the disposition of the
asset in a qualifying disposition, if the
asset is disposed of in a transaction
described in paragraph (e)(3)(v)(B) of
this section (like-kind exchange or
involuntary conversion), or if the asset
is disposed of in a transaction described
in paragraph (e)(3)(vii) of this section
(anti-abuse rule)

(ii) Formula for determining foreign
source income, gain, or loss. The
amount of ordinary income, gain, or loss
recognized on the disposition that shall
be treated as foreign source income,
gain, or loss must be determined under
the formula in this paragraph (f)(2)(i).
For purposes of this formula, the
allowed depreciation deductions are
determined for the applicable time
period provided in paragraph (f)(2)(i) of
this section. The formula is:

\[
\text{Foreign Source Income, Gain, or Loss from The Disposition of an Asset} = \frac{\text{Total Ordinary Income, Gain, or Loss from the Disposition of an Asset} \times \text{Depreciation Allowed}}{100}
\]
(g) Assets subject to recapture. If the basis of an asset in a general asset account is increased as a result of the recapture of any allowable credit or deduction (for example, the basis adjustment for the recapture amount under section 30(e)(5), 50(c)(2), 168(l)(6), 168(n)(4), 179(d)(10), 179A(e)(4), or 1400N(d)(5)), general asset account treatment for the asset terminates as of the first day of the taxable year in which the recapture event occurs. Consequently, the taxpayer must remove the asset from the general asset account as of that day and must make the adjustments to the general asset account described in paragraphs (e)(3)(iii)(C)(2) through (4) of this section.

(h) Changes in use—(1) Conversion to any personal use. An asset in a general asset account becomes ineligible for general asset account treatment if a taxpayer uses the asset in any personal activity during a taxable year. Upon a conversion to any personal use, the taxpayer must remove the asset from the general asset account as of the first day of the taxable year in which the change in use occurs (the year of change) and must make the adjustments to the general asset account described in paragraphs (e)(3)(iii)(C)(2) through (4) of this section.

(2) Change in use results in a different recovery period and/or depreciation method—(i) No effect on general asset account election. A change in the use described in §1.168(i)–4(d), (change in use results in a different recovery period or depreciation method) of an asset in a general asset account shall not cause or permit the revocation of the election made under this section.

(ii) Asset is removed from the general asset account. Upon a change in the use described in §1.168(i)–4(d), the taxpayer must remove the asset from the general asset account as of the first day of the year of change (as defined in §1.168(i)–4(a)) and must make the adjustments to the general asset account described in paragraphs (e)(3)(iii)(C)(2) through (4) of this section. If, however, the result of the change in use is described in §1.168(i)–4(d)(3) (change in use results in a shorter recovery period or a more accelerated depreciation method) and the taxpayer elects to treat the asset as though the change in use had not occurred pursuant to §1.168(i)–4(d)(3)(ii), no adjustment is made to the general asset account upon the change in use.

(iii) New general asset account is established—(A) Change in use results in a shorter recovery period or a more accelerated depreciation method. If the result of the change in use is described in §1.168(i)–4(d)(3) (change in use results in a shorter recovery period or a more accelerated depreciation method) and adjustments to the general asset account are made pursuant to paragraph (h)(2)(ii) of this section, the taxpayer must establish a new general asset account for the asset in the year of change in accordance with the rules in paragraph (c) of this section, except that the adjusted depreciable basis of the asset as of the first day of the year of change is included in the general asset account. For purposes of paragraph (c)(2) of this section, the applicable depreciation method, recovery period, and convention are determined under §1.168(i)–4(d)(3)(i).

(B) Change in use results in a longer recovery period or a slower depreciation method. If the result of the change in use is described in §1.168(i)–4(d)(4) (change in use results in a longer recovery period or a slower depreciation method), the taxpayer must establish a separate general asset account for the asset in the year of change in accordance with the rules in paragraph (c) of this section, except that the unadjusted depreciable basis of the asset, and the greater of the depreciation of the asset allowed or allowable in accordance with section 1016(a)(2), as of the first day of the year of change are included in the newly established general asset account. Consequently, this general asset account as of the first day of the year of change will have a beginning balance for both the unadjusted depreciable basis and the depreciation reserve of the general asset account.

(i) Redetermination of basis. If, after the placed-in-service year, the unadjusted depreciable basis of an asset in a general asset account is redetermined due to a transaction other than that described in paragraph (g) of this section (for example, due to contingent purchase price or discharge of indebtedness), the taxpayer’s election under paragraph (l) of this section for the asset also applies to the increase or decrease in basis resulting from the redetermination. For the taxable year in which the increase or decrease in basis occurs, the taxpayer must establish a new general asset account for the asset for the amount of the increase or decrease in basis in accordance with the rules in paragraph (c) of this section. For purposes of paragraph (c)(2) of this section, the applicable recovery period for the increase or decrease in basis is the recovery period of the asset remaining as of the beginning of the taxable year in which the increase or decrease in basis occurs, and the increase or decrease in basis is deemed to be placed in service in the same taxable year as the asset.

(j) Identification of disposed or converted asset—(1) In general. The rules of this paragraph (j) apply when an asset in a general asset account is disposed of or converted in a transaction described in paragraph (e)(3)(iii) (disposition of an asset in a qualifying disposition), paragraph (e)(3)(iv)(B) (transactions subject to...
section 168(i)(7)), paragraph (e)(3)(v)(B) (transactions subject to section 1031 or section 1033), paragraph (e)(3)(vii) (anti-abuse rule), paragraph (g) (assets subject to recapture), or paragraph (h)(1) (conversion to any personal use) of this section.

(2) Identifying which asset is disposed of or converted—(i) In general. For purposes of identifying which asset in a general asset account is disposed of or converted, a taxpayer must identify the disposed of or converted asset by using—

(A) The specific identification method of accounting. Under this method of accounting, the taxpayer can determine the particular taxable year in which the disposed of or converted asset was placed in service by the taxpayer;

(B) A first-in, first-out method of accounting if the taxpayer can readily determine from its records the total dispositions of assets with the same recovery period during the taxable year but the taxpayer cannot readily determine from its records the unadjusted depreciable basis of the disposed of or converted asset. Under this method of accounting, the taxpayer identifies the general asset account with the earliest placed-in-service year that has the same recovery period as the disposed of or converted asset and that has assets at the beginning of the taxable year of the disposition or conversion, and the taxpayer treats the disposed of or converted asset as being from that general asset account. To determine which general asset account has assets at the beginning of the taxable year of the disposition or conversion, the taxpayer reduces the number of assets originally included in the account by the number of assets disposed of or converted in any prior taxable year in a transaction to which this paragraph (j) applies;

(C) A modified first-in, first-out method of accounting if the taxpayer can readily determine from its records the total dispositions of assets with the same recovery period during the taxable year and the unadjusted depreciable basis of the disposed of or converted asset. Under this method of accounting, the taxpayer identifies the general asset account with the earliest placed-in-service year that has the same recovery period as the disposed of or converted asset and that has assets at the beginning of the taxable year of the disposition or conversion with the same recovery period during the taxable year. The mortality dispersion table must be based upon an acceptable sampling of the taxpayer’s actual disposition and conversion experience for mass assets or other acceptable statistical or engineering techniques. To use a mortality dispersion table, the taxpayer must adopt recordkeeping practices consistent with the taxpayer’s prior practices and consonant with good accounting and engineering practices; or

(E) Any other method as the Secretary may designate by publication in the Federal Register or in the Internal Revenue Bulletin (see § 601.601(d)(2) of this chapter) on or after September 19, 2013. See paragraph (j)(2)(iii) of this section regarding the last-in, first-out method of accounting.

(ii) Disposition of a portion of an asset. If a taxpayer disposes of a portion of an asset and paragraph (e)(1)(ii) of this section applies to that disposition, the taxpayer may identify the asset by using any applicable method provided in paragraph (j)(2)(i) of this section, after taking into account paragraph (j)(2)(iii) of this section.

(iii) Last-in, first-out method of accounting. For purposes of paragraph (j)(2) of this section, a last-in, first-out method of accounting may not be used. Examples of a last-in, first-out method of accounting include, but are not limited to, a study allocating the cost of the disposed of or converted asset in that general asset account, and the replacement cost of all of the assets disposed of or converted in any prior taxable year in a transaction to which this paragraph (j) applies;

(k) Effect of adjustments on prior dispositions. The adjustments to a general asset account under paragraph (e)(3)(iii), (e)(3)(iv), (e)(3)(v), (e)(3)(vii), (g), or (h) of this section have no effect on the recognition and character of prior dispositions subject to paragraph (e)(2) of this section.

(l) Election—(1) Irrevocable election. If a taxpayer makes an election under this paragraph (l), the taxpayer consents to, and agrees to apply, all of the
provisions of this section to the assets included in a general asset account. Except as provided in paragraph (c)(1)(ii)(A), (e)(3), (g), or (h) of this section or except as otherwise expressly provided by other guidance published in the Internal Revenue Bulletin (see §601.601(d)(2) of this chapter), an election made under this section is irrevocable and will be binding on the taxpayer for computing taxable income for the taxable year for which the election is made and for all subsequent taxable years. An election under this paragraph (l) is made separately by each member of a consolidated group, at the partnership level and not by the partner member of a consolidated group, at the S corporation level and not by the shareholder separately.

*m * * * * 

(m) Effective/applicability dates—(1) In general. This section applies to taxable years beginning on or after January 1, 2014. Except as provided in paragraphs (m)(2), (m)(3), and (m)(4) of this section, §1.168(i)–1 as contained in 26 CFR part 1 edition revised as of April 1, 2011, applies to taxable years beginning before January 1, 2014.

(2) Early application of this section. A taxpayer may choose to apply the provisions of this section to taxable years beginning on or after January 1, 2012.

(3) Early application of regulation project REG–110732–13. A taxpayer may rely on the provisions of this section in regulation project REG–110732–13 (2013–43 IRB 404) (see §601.601(d)(2) of this chapter) for taxable years beginning on or after January 1, 2012. However, a taxpayer may not rely on the provisions of this section in regulation project REG–110732–13 for taxable years beginning on or after January 1, 2014.

(4) Optional application of TD 9564. A taxpayer may choose to apply §1.168(i)–7T as contained in TD 9564 (76 FR 81060) December 27, 2011, to taxable years beginning on or after January 1, 2012. However, a taxpayer may not apply §1.168(i)–7T as contained in TD 9564 (76 FR 81060) December 27, 2011, to taxable years beginning on or after January 1, 2014.

(5) Change in method of accounting. A change to comply with this section for depreciable assets placed in service in a taxable year ending on or after December 30, 2003, as a change in method of accounting to which the provisions of section 446(e) and the regulations under section 446(e) apply. This paragraph (m)(5) does not apply to a change to comply with paragraph (e)(3)(ii), (e)(3)(iii), or (l) of this section, except as otherwise expressly provided by other guidance published in the Internal Revenue Bulletin (see §601.601(d)(2) of this chapter).

§1.168(i)–1T [Removed]

§ Par. 6. Section 1.168(i)–1T is removed.

§ Par. 7. Section 1.168(i)–7 is amended by revising the last sentence in paragraph (a) and revising paragraphs (b), (c)(2)(ii)(H), and (e) to read as follows:

§1.168(i)–7 Accounting for MACRS property.

(a) * * * For rules applicable to general asset accounts, see §1.168(i)–1.

(b) Required use of single asset accounts. A taxpayer must account for an asset in a single asset account if the taxpayer uses the asset both in a trade or business or for the production of income and in a personal activity, or if the taxpayer places in service and disposes of the asset during the same taxable year. Also, if general asset account treatment for an asset terminates under §1.168(i)–1(c)(1)(ii)(A), (e)(3)(ii), (e)(3)(v), (e)(3)(vii), (g), or (h)(1), as applicable, the taxpayer must account for the asset in a single asset account beginning in the taxable year in which the general asset account treatment for the asset terminates. If a taxpayer accounts for an asset in a multiple asset account or a pool and the taxpayer disposes of the asset during the same taxable year, the taxpayer must account for the asset in a single asset account beginning in the taxable year in which the disposition occurs. See §1.168(i)–8(h)(2)(i). If a taxpayer disposes of a portion of an asset and §1.168(i)–8(d)(1) applies to that disposition, the taxpayer must account for the disposed portion in a single asset account beginning in the taxable year in which the disposition occurs. See §1.168(i)–8(h)(3)(i).

(c) * * * 

(2) * * *

(ii) * * *

(H) Mass assets (as defined in §1.168(i)–8(b)(3)) that are or will be subject to §1.168(i)–8(g)(2)(ii)(A) (disposed of or converted mass asset is identified by a mortality dispersion table) must be grouped into a separate multiple asset account or pool.

(e) Effective/applicability dates—(1) In general. This section applies to taxable years beginning on or after January 1, 2014.

(2) Early application of this section. A taxpayer may choose to apply the provisions of this section to taxable years beginning on or after January 1, 2012.

(3) Early application of regulation project REG–110732–13. A taxpayer may rely on the provisions of this section in regulation project REG–110732–13 (2013–43 IRB 404) (see §601.601(d)(2) of this chapter) for taxable years beginning on or after January 1, 2012. However, a taxpayer may not rely on the provisions of this section in regulation project REG–110732–13 for taxable years beginning on or after January 1, 2014.

(4) Optional application of TD 9564. A taxpayer may choose to apply §1.168(i)–7T as contained in TD 9564 (76 FR 81060) December 27, 2011, to taxable years beginning on or after January 1, 2012. However, a taxpayer may not apply §1.168(i)–7T as contained in TD 9564 (76 FR 81060) December 27, 2011, to taxable years beginning on or after January 1, 2014.

(5) Change in method of accounting. A change to comply with this section for depreciable assets placed in service in a taxable year ending on or after December 30, 2003, as a change in method of accounting to which the provisions of section 446(e) and the regulations under section 446(e) apply. A taxpayer also may treat a change to comply with this section for depreciable assets placed in service in a taxable year ending before December 30, 2003, as a change in method of accounting to which the provisions of section 446(e) and the regulations under section 446(e) apply.

§ Par. 8. Section 1.168(i)–8 is added to read as follows:

§1.168(i)–8 Dispositions of MACRS property.

(a) Scope. This section provides rules applicable to dispositional property (as defined in §1.168(b)–1(a)(2)) or to depreciable property (as defined in §1.168(b)–1(a)(1)) that would be MACRS property but for an election made by the taxpayer either to expense all or some of the property’s cost under section 179, section 179A, section 179B, section 179C, section 179D, or section 1400(l)(4), or any similar provision, or to amortize all or some of the property’s cost under section 1400(l)(2) or any similar provision. This section also...
applies to dispositions described in paragraph (d)(1) of this section of a portion of such property. Except as provided in § 1.168(i)–1(e)(3), this section does not apply to dispositions of assets included in a general asset account. For rules applicable to dispositions of assets included in a general asset account, see § 1.168(i)–1(e).

(b) Definitions. For purposes of this section—

(1) Building has the same meaning as that term is defined in § 1.48–1(e)(1).

(2) Disposition occurs when ownership of the asset is transferred or when the asset is permanently withdrawn from use either in the taxpayer’s trade or business or in the production of income. A disposition includes the sale, exchange, retirement, physical abandonment, or destruction of an asset. A disposition also occurs when an asset is transferred to a supplies, scrap, or similar account, or when a portion of an asset is disposed of as described in paragraph (d)(1) of this section. If a structural component, or a portion thereof, of a building is disposed of in a disposition described in paragraph (d)(1) of this section, a disposition also includes the disposition of such structural component or such portion thereof.

(3) Mass assets is a mass or group of individual items of depreciable assets—

(i) That are not necessarily homogenous;

(ii) Each of which is minor in value relative to the total value of the mass or group;

(iii) Numerous in quantity;

(iv) Usually accounted for only on a total dollar or quantity basis;

(v) With respect to which separate identification is impracticable; and

(vi) Placed in service in the same taxable year.

(4) Portion of an asset is any part of an asset that is less than the entire asset as determined under paragraph (c)(4) of this section.

(5) Structural component has the same meaning as that term is defined in § 1.48–1(e)(2).

(6) Unadjusted depreciable basis of the multiple asset account or pool is the sum of the unadjusted depreciable bases (as defined in § 1.168(b)–1(a)(3)) of all assets included in the multiple asset account or pool.

(c) Special rules—(1) Manner of disposition. The manner of disposition (for example, normal retirement, abnormal retirement, ordinary retirement, or extraordinary retirement) is not taken into account in determining whether a disposition occurs or gain or loss is recognized.

(2) Disposition by transfer to a supplies account. If a taxpayer made an election under § 1.162–3(d) to treat the cost of any rotatable spare part, temporary spare part, or standby emergency spare part (as defined in § 1.162–3(c)) as a capital expenditure subject to the allowance for depreciation, the taxpayer can dispose of the rotatable, temporary, or standby emergency spare part by transferring it to a supplies account only if the taxpayer has obtained the consent of the Commissioner to revoke the § 1.162–3(d) election. If a taxpayer made an election under § 1.162–3T(d) to treat the cost of any material and supply (as defined in § 1.162–3T(c)(1)) as a capital expenditure subject to the allowance for depreciation, the taxpayer can dispose of the material and supply by transferring it to a supplies account only if the taxpayer has obtained the consent of the Commissioner to revoke the § 1.162–3T(d) election. See § 1.162–3(d)(3) for the procedures for revoking a § 1.162–3T(d) election.

(3) Leasestate improvements. This section also applies to—

(i) A lessor of leased property that made an improvement to that property for the lessee of the property, has a depreciable basis in the improvement, and disposes of the improvement, or disposes of a portion of the improvement under paragraph (d)(1) of this section, before or upon the termination of the lease with the lessee. See section 168(i)(8)(B); and

(ii) A lessee of leased property that made an improvement to that property, has a depreciable basis in the improvement, and disposes of the improvement, or disposes of a portion of the improvement under paragraph (d)(1) of this section, before or upon the termination of the lease.

(4) Determination of asset disposed of—(i) General rules. For purposes of applying this section, the facts and circumstances of each disposition are considered in determining what is the appropriate asset disposed of. The asset for disposition purposes may not consist of items placed in service by the taxpayer on different dates, without taking into account the applicable convention. For purposes of determining what is the appropriate asset disposed of, the unit of property determination under § 1.263(a)–3(e) or in published guidance in the Internal Revenue Bulletin (see § 601.601(d)(2) of this chapter) under section 263(a) does not apply.

(ii) Special rules. In addition to the general rules in paragraph (c)(4)(i) of this section, the following rules apply for purposes of applying this section:

(A) Each building, including its structural components, is the asset, except as provided in § 1.1250–1(a)(2)(ii) or in paragraph (c)(4)(ii)(B) or (D) of this section.

(B) If a building has two or more condominium or cooperative units, each condominium or cooperative unit, including its structural components, is the asset, except as provided in § 1.1250–1(a)(2)(ii) or in paragraph (c)(4)(ii)(D) of this section.

(C) If a taxpayer properly includes an item in one of the asset classes 00.11 through 00.4 of Rev. Proc. 87–56 (1987–2 CB 674) (see § 601.601(d)(2) of this chapter) or properly classifies an item in one of the categories under section 168(e)(3), except for a category that includes buildings or structural components (for example, retail motor fuels outlet, qualified leasehold improvement property, qualified restaurant property, and qualified retail improvement property), each item is the asset provided paragraph (c)(4)(ii)(D) of this section does not apply to the item. For example, each desk is the asset, each computer is the asset, and each qualified smart electric meter is the asset.

(D) If the taxpayer places in service an improvement or addition to an asset after the taxpayer placed the asset in service, the improvement or addition and, if applicable, its structural components are a separate asset.

(d) Disposition of a portion of an asset—(1) In general. For purposes of applying this section, a disposition includes a disposition of a portion of an asset as a result of a casualty event described in section 165, a disposition of a portion of an asset for which gain, determined without regard to section 1245 or section 1250, is not recognized in whole or in part under section 1031 or section 1033, a transfer of a portion of an asset for which gain, determined without regard to section 1245 or section 1250, is not recognized in whole or in part under section 1031 or section 1033, a transfer of a portion of an asset in a transaction described in section 168(i)(7)(B), or a sale of a portion of an asset, even if the taxpayer does not make the election under paragraph (d)(2)(i) of this section for that disposed portion. For other transactions, a disposition includes a disposition of a portion of an asset only if the taxpayer makes the election under paragraph (d)(2)(i) of this section for that disposed portion.

(2) Partial disposition election—(i) In general. A taxpayer may make an election under this paragraph (d)(2) to apply this section to a disposition of a portion of an asset. If the asset is properly included in one of the asset classes 00.11 through 00.4 of Rev. Proc. 87–56, a taxpayer may make the election under this paragraph (d)(2) to apply this section to a disposition of a portion of
such asset only if the taxpayer classifies the replacement portion of the asset under the same asset class as the disposed portion of the asset.

(ii) Time and manner for making election—(A) Time for making election. Except as provided in paragraph (d)(2)(iii) or (iv) of this section, a taxpayer must make the election specified in paragraph (d)(2)(i) of this section by the due date, including extensions, of the original Federal tax return for the taxable year in which the portion of an asset is disposed of by the taxpayer.

(B) Manner of making election. Except as provided in paragraph (d)(2)(iii) or (iv) of this section, a taxpayer must make the election specified in paragraph (d)(2)(i) of this section by applying the provisions of this section for the taxable year in which the portion of an asset is disposed of by the taxpayer, by reporting the gain, loss, or other deduction on the taxpayer’s timely filed, including extensions, original Federal tax return for that taxable year, and, if the asset is properly included in one of the asset classes 00.11 through 00.4 of Rev. Proc. 87–56, by classifying the replacement portion of such asset under the same asset class as the disposed portion of the asset in the taxable year in which the replacement portion is placed in service by the taxpayer.

Except as provided in paragraph (d)(2)(iii) or (iv)(B) of this section or except as otherwise expressly provided by other guidance published in the Internal Revenue Bulletin (see § 601.601(d)(2) of this chapter), the election specified in paragraph (d)(2)(i) of this section may not be made through the filing of an application for change in accounting method.

(iii) Special rule for subsequent Internal Revenue Service adjustment. This paragraph (d)(2)(iii) applies when a taxpayer deducted the amount paid or incurred for the replacement of a portion of an asset as a repair under § 1.162–4, the taxpayer did not make the election specified in paragraph (d)(2)(i) of this section for the disposed portion of that asset within the time and in the manner under paragraph (d)(2)(ii) or (iv) of this section, and as a result of an examination of the taxpayer’s Federal tax return, the Internal Revenue Service disallows the taxpayer’s repair deduction for the amount paid or incurred for the replacement of the portion of that asset and instead capitalizes such amount under § 1.263(a)–2 or § 1.263(a)–3. If this paragraph (d)(2)(iii) applies, the taxpayer may irrevocably revoke the election specified in paragraph (d)(2)(i) of this section for the disposition of the portion of the asset to which the Internal Revenue Service’s adjustment pertains by filing an application for change in accounting method, provided the asset of which the disposed portion was a part is owned by the taxpayer at the beginning of the year of change (as defined for purposes of section 446(e)).

(iv) Special rules for 2012 or 2013 returns. If, under paragraph (j)(2) of this section, a taxpayer chooses to apply the provisions of this section to a taxable year beginning on or after January 1, 2012, and ending on or before September 19, 2013 (applicable taxable year), and the taxpayer did not make the election specified in paragraph (d)(2)(i) of this section on its timely filed original Federal tax return for the applicable taxable year, including extensions, the taxpayer must make the election specified in paragraph (d)(2)(i) of this section for the applicable taxable year by filing either—

(A) An amended Federal tax return for the applicable taxable year on or before 180 days from the due date including extensions of the taxpayer’s Federal tax return for the applicable taxable year, notwithstanding that the taxpayer may not have extended the due date; or

(B) An application for change in accounting method with the taxpayer’s timely filed original Federal tax return for the first or second taxable year succeeding the applicable taxable year.

(v) Revocation. A taxpayer may revoke the election specified in paragraph (d)(2)(i) of this section only by filing a request for a private letter ruling and obtaining the Commissioner’s consent to revoke the election. The Commissioner may grant a request to revoke this election if the taxpayer acted reasonably and in good faith, and the revocation will not prejudice the interests of the Government. See generally § 301.9100–3 of this chapter. The election specified in paragraph (d)(2)(i) of this section may not be revoked through the filing of an application for change in accounting method.

(e) Gain or loss on dispositions. Solely for purposes of this paragraph (e), the term asset is an asset within the scope of this section or the portion of such asset that is disposed of in a disposition described in paragraph (d)(1) of this section. Except as provided by section 280B and § 1.280B–1, the following rules apply when an asset is disposed of during a taxable year:

(1) If an asset is disposed of by sale, exchange, or involuntary conversion, gain or loss must be recognized under the applicable provisions of the Internal Revenue Code.

(2) If an asset is disposed of by physical abandonment, loss must be recognized in the amount of the adjusted depreciable basis (as defined in § 1.163(b)–1(a)(4)) of the asset at the time of the abandonment, taking into account the applicable convention. However, if the abandoned asset is subject to nonrecourse indebtedness, paragraph (e)(1) of this section applies to the asset instead of this paragraph (e)(2). For a loss from physical abandonment to qualify for recognition under this paragraph (e)(2), the taxpayer must intend to discard the asset irrevocably so that the taxpayer will neither use the asset again nor retrieve it for sale, exchange, or other disposition.

(3) If an asset is disposed of other than by sale, exchange, involuntary conversion, physical abandonment, or conversion to personal use (as, for example, when the asset is transferred to a supplies or scrap account), gain is not recognized. Loss must be recognized in the amount of the excess of the adjusted depreciable basis of the asset at the time of the disposition, taking into account the applicable convention, over the asset’s fair market value at the time of the disposition, taking into account the applicable convention.

(f) Basis of asset disposed of—(1) In general. The adjusted basis of an asset disposed of for computing gain or loss is its adjusted depreciable basis at the time of the asset’s disposition, as determined under the applicable convention for the asset.

(2) Assets disposed of are in multiple asset accounts. (i) If the taxpayer accounts for the asset disposed of in a multiple asset account or pool and it is impracticable from the taxpayer’s records to determine the unadjusted depreciable basis (as defined in § 1.166(b)–1(a)(3)) of the asset disposed of, the taxpayer may use any reasonable method that is consistently applied to all assets in the same multiple asset account or pool for purposes of determining the unadjusted depreciable basis of assets disposed of. Examples of a reasonable method include, but are not limited to, the following:

(A) If the replacement asset is a restoration (as defined in § 1.263(a)–3(k)), and is not a betterment (as defined in § 1.263(a)–3(j)) or an adaptation to a new or different use (as defined in § 1.263(a)–3(l)), discounting the cost of the replacement asset to its placed-in-service year cost using the Producer Price Index for Finished Goods or its successor, the Producer Price Index for Final Demand, or any other index designated by guidance in the Internal Revenue Bulletin (see § 601.601(d)(2) of
or any disposed portion of the assets. Examples of a reasonable method include, but are not limited to, the following:

(A) If the replacement portion is a restoration (as defined in §1.1263(a)–3(k)), and is not a betterment (as defined in §1.1263(a)–3(j)) or an adaptation to a new or different use (as defined in §1.1263(a)–3(l)), discounting the cost of the replacement portion of the asset to its placed-in-service year cost using the Producer Price Index for Finished Goods or its successor, the Producer Price Index for Final Demand, or any other index designated by guidance in the Internal Revenue Bulletin (see §601.601(d)(2) of this chapter) for purposes of this paragraph (f)(3);

(B) A pro rata allocation of the unadjusted depreciable basis of the disposed portion of the asset based on the replacement cost of the disposed asset and the replacement cost of all of the assets in the multiple asset account or pool; and

(C) A study allocating the cost of the asset to its individual components.

(ii) To determine the adjusted depreciable basis of an asset disposed of in a multiple asset account or pool, the depreciation allowed or allowable for the asset disposed of is computed by using the depreciation method, recovery period, and convention applicable to the multiple asset account or pool in which the asset disposed of was included and by including the additional first year depreciation deduction claimed for the disposed asset of.

(3) Disposition of a portion of an asset. (i) This paragraph (f)(3) applies only to dispositions of a portion of an asset and paragraph (d)(1) of this section applies to that disposition. For computing gain or loss, the adjusted basis of the disposed portion of the asset is the adjusted depreciable basis of that disposed portion at the time of its disposition, as determined under the applicable convention for the asset. If it is impracticable from the taxpayer’s records to determine the unadjusted depreciable basis (as defined in §1.168(b)–1(a)(3)) of the disposed portion of the asset, the taxpayer may use any reasonable method for purposes of determining the unadjusted depreciable basis (as defined in §1.168(b)–1(a)(3)) of the disposed portion of the asset. If a taxpayer disposes of more than one portion of the same asset and it is impracticable from the taxpayer’s records to determine the unadjusted depreciable basis of that disposed portion at the time of its disposition, as determined under the applicable convention for the asset, the unadjusted depreciable basis of the disposed portion of the asset must be consistently applied to all portions of the same asset for purposes of determining the unadjusted depreciable basis of each disposed portion of the asset. If the asset, a portion of which is disposed of, is in a multiple asset account or pool and it is impracticable from the taxpayer’s records to determine the unadjusted depreciable basis (as defined in §1.168(b)–1(a)(3)) of the disposed portion of the asset, the reasonable method used by the taxpayer must be consistently applied to all portions of the same asset for purposes of determining the unadjusted depreciable basis of assets disposed of.
Accounting for asset disposed of—

(1) Depreciation ends. Depreciation ends for an asset at the time of the asset’s disposition, as determined under the applicable convention for the asset. See §1.167(a)–10(b). If the asset disposed of is in a single asset account initially or as a result of §1.168(i)–8(h)(2)(i), §1.168(i)–8(h)(3)(i), or general asset account treatment for the asset terminated under §1.168(i)–1(c)(1)(ii)(A), §1.168(i)–7(b), or §1.168(i)–7(b), see §1.168(i)–7(b). The depreciation reserve of the asset must be reduced by the unadjusted depreciable basis of the disposed portion as of the first day of the taxable year in which the disposition occurs. See paragraph (f)(3)(i) of this section for determining the unadjusted depreciable basis of the disposed portion.

(2) Asset disposed of in a multiple asset account or pool. If the taxpayer accounts for the asset disposed of in a multiple asset account or pool, then—

(i) As of the first day of the taxable year in which the disposition occurs, the asset disposed of is removed from the multiple asset account or pool and is placed into a single asset account. See §1.168(i)–7(b).

(ii) The unadjusted depreciable basis of the multiple asset account or pool must be reduced by the unadjusted depreciable basis of the asset disposed of as of the first day of the taxable year in which the disposition occurs. See paragraph (f)(2)(i) of this section for determining the unadjusted depreciable basis of the asset disposed of.

(iii) The depreciation reserve of the multiple asset account or pool must be reduced by the depreciation allowed or allowable for the asset disposed of as of the end of the taxable year immediately preceding the year of disposition, computed by using the depreciation method, recovery period, and convention applicable to the asset in which the disposed portion was included and by including the portion of the additional first year depreciation deduction claimed for the asset that is attributable to the disposed portion; and

(iv) In determining the adjusted depreciable basis of the disposed portion at the time of disposition, taking into account the applicable convention, the depreciation allowed or allowable for the disposed portion as of the end of the taxable year immediately preceding the year of disposition, computed by using the depreciation method, recovery period, and convention applicable to the asset in which the disposed portion was included and by including the portion of the additional first year depreciation deduction claimed for the asset that is attributable to the disposed portion.

(l) Examples. The application of this section is illustrated by the following examples:

Example 1. A owns an office building with four elevators. A replaces one of the elevators. The elevator is a structural component of the office building. In accordance with paragraph (c)(4)(iii)(A) of this section, the office building, including its structural components, is the asset for disposition purposes. A does not make the partial disposition election provided under paragraph (d)(2) of this section for the elevator. Thus, the retirement of the replaced elevator is a disposition. As a result, depreciation continues for the cost of the building, including the cost of the retired elevator and the building’s other structural components, and A does not recognize a loss for this retired elevator. If A must capitalize the amount paid for the replacement elevator pursuant to §1.263(a)–3, the replacement elevator is a separate asset for disposition purposes pursuant to paragraph (c)(4)(iii)(D) of this section and for depreciation purposes pursuant to section 168(i)(6).

Example 2. The facts are the same as in Example 1, except A accounts for each structural component of the office building as a separate asset in its fixed asset system. Although A treats each structural component as a separate asset in its records, the office building, including its structural components, is the asset for disposition purposes in accordance with paragraph (c)(4)(iii)(A) of this section. Accordingly, the result is the same as in Example 1.

Example 3. The facts are the same as in Example 1, except A makes the partial disposition election provided under paragraph (d)(2) of this section for the elevator. Although the office building, including its structural components, is the asset for disposition purposes, the result is the same as in Example 1.

Example 4. B, a calendar-year commercial airline company, owns several aircraft that are used in the commercial carrying of passengers and described in asset class 45.0 of Rev. Proc. 87–56. B replaces the existing engines on one of the aircraft with new engines. Assume each aircraft is a unit of property as determined under §1.263(a)–3(k)(3) and each engine is a major component or substantial structural part of the aircraft as determined under §1.263(a)–3(k)(6). Assume also that B treats each aircraft as the asset for disposition purposes in accordance with paragraph (c)(4) of this section. B makes the partial disposition election provided under paragraph (d)(2) of this section for the engines in the aircraft. Although the aircraft is the asset for disposition purposes, the result of B making the partial disposition election for the engines is that the retirement of the replaced engines is a disposition. Thus, depreciation for the retired engines ceases at the time of their retirement, taking into account the applicable convention, and B recognizes a loss upon this retirement.

Example 5. The facts are the same as in Example 4, except B does not make the
partial disposition election provided under paragraph (d)(2) of this section for the engines. Thus, the retirement of the replaced engines on one of the aircraft is not a disposition. As a result, depreciation continues for the cost of the aircraft, including the cost of the retired engines, and B does not recognize a loss for these retired engines. If B must capitalize the amount paid for the replacement engines pursuant to §1.263(a)–3, the replacement engines are a separate asset for disposition purposes pursuant to paragraph (c)(4)(iii)(D) of this section and for depreciation purposes pursuant to section 168(i)(6).

Example 6. C, a corporation, owns several trucks that are used in its trade or business and described in asset class 00.241 of Rev. Proc. 87–56. C replaces the engine on one of the trucks with a new engine. Assume each truck is a unit of property as determined under §1.263(a)–3(e)(3) and each engine is a major component or substantial structural part of the truck as determined under §1.263(a)–6(a). Assume the trucks are described in asset class 00.241 of Rev. Proc. 87–56. C must treat each truck as the asset for disposition purposes. C does not make the partial disposition election provided under paragraph (d)(2) of this section for the engine. Thus, the retirement of the replaced engine on the truck is not a disposition. As a result, depreciation continues for the cost of the truck, including the cost of the retired engine, and C does not recognize a loss for this retired engine. If C must capitalize the amount paid for the replacement engine pursuant to paragraph (d)(2) of this section, the retirement of the replacement engine is a separate asset for disposition purposes pursuant to paragraph (c)(4)(iii)(D) of this section and for depreciation purposes pursuant to section 168(i)(6).

Example 7. D owns a retail building. D replaces 60% of the roof of this building. In accordance with paragraph (c)(4)(iii)(A) of this section, the retail building, including its structural components, is the asset for disposition purposes. Assume D must capitalize the costs incurred for replacing 60% of the roof pursuant to §1.263(a)–3(k)(1)(i) and (vi) and the replacement 60% of the roof is a separate asset for disposition purposes pursuant to paragraph (c)(4)(iii)(D) of this section and for depreciation purposes pursuant to section 168(i)(6).

Example 9. (i) On July 1, 2011, E, a calendar-year taxpayer, purchased and placed in service an existing multi-story office building. E identifies any dispositions of these mass assets with a 5-year recovery period each for the replacement elevator to its cost in 2011 (the placed-in-service year) using the Producer Price Index for Final Demand, resulting in $150,000 of the $20,000,000 purchase price for the building to be the cost of the retired elevator. Using the optional depreciation table that corresponds with the general depreciation system, the straight-line method, a 39-year recovery period, and the mid-month convention, the depreciation allowance or allowable for the retired elevator as of December 31, 2013, is $9,458.

(ii) For E’s 2014 Federal tax return, the loss for the retired elevator is determined as follows. The depreciation allowed or allowable for 2014 for the retired elevator is $1,763 (unadjusted depreciable basis of $150,000 × depreciation rate of 2.564% for 2014) × 5.5/12 months). Thus, the adjusted depreciable basis of the retired elevator is $138,779 (the adjusted depreciable basis of $140,542 removed from the building cost less the depreciable basis of the retired elevator of $1,763 for 2014). As a result, E recognizes a loss of $138,779 for the retired elevator in 2014.

(iii) For E’s 2014 Federal tax return, the depreciation allowance for the building is computed as follows. As of January 1, 2014, the unadjusted depreciable basis of the building is reduced from $20,000,000 to $19,850,000 ($20,000,000 less the unadjusted depreciable basis of $150,000 for the retired elevator), and the depreciation reserve of the building is reduced from $1,261,000 to $1,254,520 ($1,261,000 less the depreciation allowance or allowable of $9,458 for the retired elevator as of December 31, 2013). Consequently, the depreciation allowance for the building for 2014 is $508,954 ($19,850,000 × depreciation rate of 2.564% for 2014).

(iv) For E’s 2014 Federal tax return, E also must capitalize the amount paid for the replacement elevator pursuant to §1.263(a)–3(k)(1). The replacement elevator is a separate asset for disposition purposes pursuant to paragraph (c)(4)(iii)(D) of this section and for depreciation purposes pursuant to section 168(i)(6).

Example 10. (i) Since 2005, F, a calendar-year taxpayer, has accounted for items of MACRS property that are mass assets in pools. Each pool includes only the mass assets that have the same depreciation method, recovery period, and convention, and are placed in service by F in the same taxable year. None of the pools are general asset accounts under section 168(i)(4) and the regulations under section 168(i)(4). F identifies any dispositions of these mass assets by specific identification.

(ii) During 2014, F sells 10 items of mass assets with a 5-year recovery period each for $100. Under the specific identification method, F identifies these mass assets as being from the pool established by F in 2012 for mass assets with a 5-year recovery period. Assume F depreciates this pool using the optional depreciation table that corresponds with the general depreciation system, the straight-line method, a 5-year recovery period, and the mid-year convention. F elected not to deduct the additional first year depreciation provided by
section 168(k) for 5-year property placed in service during 2012. As of January 1, 2014, this pool contains 100 similar items of mass assets with a total cost of $25,000 and a total depreciation reserve of $13,000. Because all the items of mass assets in the pool are similar, the cost and depreciation allowed or allowable for the pool ratably among each item in the pool. This allocation is a reasonable method because all the items of mass assets in the pool are similar. Using this reasonable method, F allocates a cost of $250 ($250 × (1/100)) to each disposed of mass asset and depreciation allowed or allowable of $130 ($13,000 × (1/100)) to each disposed of mass asset. The depreciation allowed or allowable in 2014 for each disposed of mass asset is $24 ($250 × 19.2%/2). As a result, the adjusted depreciable basis of each disposed of mass asset under section 1011 is $96 ($250 − $130 − $24). Thus, F recognizes a gain of $4 for each disposed of mass asset in 2014, which is subject to section 1245.

(ii) Further, as of January 1, 2014, the unadjusted depreciable basis of the 2012 pool of mass assets with a 5-year recovery period is reduced from $25,000 to $22,500 ($25,000 less the unadjusted depreciable basis of $2,500 for the 10 disposed of items), and the depreciation reserve of this 2012 pool is reduced from $13,000 to $11,700 ($13,000 less the depreciation allowed or allowable of $1,300 for the 10 disposed of items as of December 31, 2013). Consequently, as of January 1, 2014, the 2012 pool of mass assets with a 5-year recovery period has 90 items with a total cost of $22,500 and a depreciation reserve of $11,700. Thus, the depreciation allowance for this pool for 2014 is $4,320 ($22,500 × 19.2%).

Example 11. (i) The facts are the same as in Example 10. Because of changes in F’s recordkeeping in 2015, it is impracticable for F to continue to identify disposed of mass assets using specific identification and to determine the unadjusted depreciable basis of the disposed of mass assets. As a result, F files a Form 3115, Application for Change in Accounting Method, to change to a first-in, first-out method beginning with the taxable year beginning on January 1, 2015, on a modified cut-off basis. See § 1.446–1(e)(2)(ii)(d)(2)(vi). Under the first-in, first-out method, the mass assets disposed of in a taxable year are deemed to be from the pool with the earliest placed-in-service year that has assets as of the beginning of the taxable year of the disposition with the same recovery period as the asset disposed of. The Commissioner of Internal Revenue consents to this change in method of accounting.

(ii) During 2015, F sells 20 items of mass assets with a 5-year recovery period each for $50. As of January 1, 2015, the 2008 pool is the pool with the earliest placed-in-service year for mass assets with a 5-year recovery period, and this pool contains 25 items of mass assets with a total cost of $10,000 and a total depreciation reserve of $10,000. Thus, F allocates a cost of $400 ($10,000 × (1/25)) to each disposed of mass asset and depreciation allowed or allowable of $400 to each disposed of mass asset. As a result, the adjusted depreciable basis of each disposed of mass asset is $0. Thus, F recognizes a gain of $50 for each disposed of mass asset in 2015, which is subject to section 1245.

(iii) Further, as of January 1, 2015, the unadjusted depreciable basis of the 2008 pool of mass assets with a 5-year recovery period is reduced from $10,000 to $2,000 ($10,000 less the unadjusted depreciable basis of $8,000 for the 20 disposed of items ($400 × 20)), and the depreciation reserve of this 2008 pool is reduced from $10,000 to $2,000 ($10,000 less the depreciation allowed or allowable of $8,000 for the 20 disposed of items as of December 31, 2014).

Consequently, as of January 1, 2015, the 2008 pool of mass assets with a 5-year recovery period has 5 items with a total cost of $2,000 and a depreciation reserve of $2,000.

(j) Effective/applicability dates—(1) In general. This section applies to taxable years beginning on or after January 1, 2014.

(2) Early application of this section. A taxpayer may choose to apply the provisions of this section to taxable years beginning on or after January 1, 2012.

(3) Early application of regulation project REG–110732–13. A taxpayer may rely on the provisions of this section in regulation project REG–110732–13 (2013–43 IRB 404) (see §601.601(d)(2) of this chapter) for taxable years beginning on or after January 1, 2012. However, a taxpayer may not rely on the provisions of this section in regulation project REG–110732–13 for taxable years beginning on or after January 1, 2014.

(4) Optional application of TD 9564. A taxpayer may choose to apply §1.168(i)–8T as contained in 26 CFR part 1 edition revised as of April 1, 2014, to taxable years beginning on or after January 1, 2012. However, a taxpayer may not apply §1.168(i)–8T as contained in 26 CFR part 1 edition revised as of April 1, 2014, to taxable years beginning on or after January 1, 2014.

(5) Change in method of accounting. A change to comply with this section for depreciable assets placed in service in a taxable year ending on or after December 31, 2003, is a change in method of accounting to which the provisions of section 446(e) and the regulations under section 446(e) apply. A taxpayer also may treat a change to comply with this section for depreciable assets placed in service in a taxable year ending before December 31, 2003, as a change in method of accounting to which the provisions of section 446(e) and the regulations under section 446(e) apply. This paragraph (jj)(5) does not apply to a change to comply with paragraph (d)(2) of this section, except as provided in paragraph (d)(2)(iii) or (iv)(B) of this section or otherwise provided by other guidance published in the Internal Revenue Bulletin (see §601.601(d)(2) of this chapter).

§1.168(i)–8T [Removed]

Par. 9. Section 1.168(i)–8T is removed.

§1.263(a)–3 [Amended]

Par. 10. Section 1.263(a)–3 is amended by:

a. In paragraphs (g)(2)(i), (g)(2)(ii) Example 2, and (g)(2)(i) Example 4, removing the language “Prop. Reg. §1.168(i)–8(d) (September 19, 2013)” and adding the language “§1.168(i)–8(d)” in its place.

b. In paragraph (g)(2)(i), removing the language “§1.168(i)–1T(e)(3) nor Prop. Reg. §1.168(i)–1(e)(3) (September 19, 2013)” and adding the language “§1.168(i)–1(e)(3)” in its place, and removing the language “Prop. Reg. §1.168(i)–1(e)(2)(ix) (September 19, 2013)” and adding the language “§1.168(i)–1(e)(2)(ix)” in its place.

c. In paragraphs (g)(2)(ii) and (g)(2)(i) Example 1, removing the language “Prop. Reg. §1.168(i)–1(e) (September 19, 2013), or Prop. Reg. §1.168(i)–8 (September 19, 2013)” and adding the language “§1.168(i)–1(e)” or “§1.168(i)–8” in its place.

d. In paragraph (k)(7) Example 30, removing the language “Prop. Reg. §1.168(i)–8” and adding the language “§1.168(i)–8” in its place, and removing the language “Prop. Reg. §1.168(i)–8(c)(4)(ii)(A) (September 19, 2013)” and adding the language “§1.168(i)–8(c)(4)(ii)(A)” in its place.

e. In paragraph (k)(7) Example 30 and Example 31, removing the language “Prop. Reg. §1.168(i)–8(d)(2) (September 19, 2013),” and adding the language “§1.168(i)–8(d)(2)” in its place.

f. In paragraph (k)(7) Example 31, removing the language “Prop. Reg. §1.168(i)–8(c)(4)(ii)(D) (September 19, 2013)” and adding the language “§1.168(i)–8(c)(4)(ii)(D)” in its place.

Par. 11. Section 1.1016–3 is amended by revising the fourth sentence in paragraph (a)(1)(iii) to read as follows:

§1.1016–3 Exhaustion, wear and tear, obsolescence, amortization, and depletion for periods since February 13, 1913.

(a) * * *

(1) * * *

(ii) * * *

For rules governing losses on retirement or disposition of depreciable property, including rules for determining basis, see §1.167(a)–8,
1.168(i)–1(e), or 1.168(i)–8, as applicable. * * *

John Dalrymple,
Deputy Commissioner for Services and Enforcement.

Approved: July 11, 2014.

Mark J. Mazur,
Assistant Secretary of the Treasury (Tax Policy).

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[DOCKET NUMBER USCG–2014–0329]

RIN 1625–AA00

Safety Zones; Marine Events in Captain of the Port Long Island Zone

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing three temporary safety zones for two fireworks events and one swim event within the Captain of the Port Long Island Sound Zone. This action is necessary to provide for the safety of life on navigable waters during these events. Entering into, transiting through, remaining, anchoring or mooring within these regulated areas would be prohibited unless authorized by the Captain of the Port Sector Long Island Sound.

DATES: This rule is effective without actual notice from August 18, 2014 until August 30, 2014. For the purposes of enforcement, actual notice will be used from the date the rule was signed, July 31, 2014, until August 18, 2014.

ADDRESSES: Documents mentioned in this preamble are part of docket [USCG–2014–0329]. To view documents mentioned in this preamble as being available in the docket, go to http://www.regulations.gov, type the docket number in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this rulemaking. You may also visit the Docket Management Facility in Room W12–140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Petty Officer Scott Baumgartner, Prevention Department, Coast Guard Sector Long Island Sound, (203) 468–4559, Scott.A.Baumgartner@uscg.mil. If you have questions on viewing or submitting material to the docket, call Cheryl Collins, Program Manager, Docket Operations, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION:

COTP Captain of the Port
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of Proposed Rulemaking

A. Regulatory History and Information

There are three separate marine events addressed by this temporary regulation. On May 29, 2014 the Coast Guard published a NPRM entitled “Safety Zones; Marine Events in Captain of the Port Long Island Zone” in the Federal Register (79 FR 30783). No public comments were received on the proposed rule. No public meeting was requested and none was held. The Village of Saltaire fireworks display and the Riverhead Rocks TRIATHLON were both held the previous year and had separate safety zones established by a temporary final rule entitled “Special Local Regulations and Safety Zones; Marine Events in Captain of the Port Long Island Sound Zone.” This rulemaking was published on July 10, 2013 in the Federal Register (78 FR 41300). The Baker Family Celebration fireworks display is a first time event with no other regulatory history.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for promulgating this rule in an emergency situation to make waterways safe. The legal basis for this temporary rule is 33 U.S.C. 1231; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195, 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Public Law 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to define regulatory safety zones.

This temporary rule is necessary to promote the safety of life on navigable waterways within the COTP Long Island Sound Zone during these events.

B. Basis and Purpose

C. Discussion of Comments, Changes and the Final Rule

No comments were received and there has been one change made to the final rule as a result of the sponsor for the Brookhaven Memorial Hospital Fireworks cancelling their event. The proposed safety zone associated with their event is no longer necessary and has been removed from the final rule.

The Coast Guard is establishing three safety zones for two fireworks displays and one swim event to provide for the safety of life on navigable waters during these events. This rule will be effective from 8:30 p.m. on August 2, 2014 to 10:30 p.m. on August 30, 2014.

The events covered by this regulation will be enforced on the respective dates, times, and locations listed in the table below. If any of the events are cancelled due to inclement weather, then this regulation will be enforced on rain dates listed in the table below.
